DEPARTMENT OF MATHEMATICS

Math 101

Text: *Calculus of a single Variable, 7th edition, Larson, Hostetler & Edwards, 2002*

Course Content: Chapters 5.8 - 5.10, 6, 7, 8, 9

Grading:

4 quizzes, assignments and labs	50%
Final Exam	50%

or
If your term work is **complete** and **satisfactory**,
and your mark on the final is higher,
the final will count for 100% of your grade.

Note: **No electronic devices of any sort (e.g. cell phones, discmen, translators) other than non-graphing, non-programmable calculators are allowed on tests.** Quizzes are on May 7, May 21, June 4 and June 16. Your final could be as late as June 23, 2004.

If you are going to miss a quiz, please familiarize yourself with the missed quiz policy below.

Instructor: Chris Odgers, Ewing 262
370-3500 (24 hour machine)

HAVING TROUBLE? NEED HELP? Office hours are right after class.

If a quiz is short (for instance, if 20% of the class is finished after 40 minutes) bonus questions are usually available on request from me. Anyone can ask for them, if it's not too late. They are usually slightly harder than regular test questions. There is no penalty for not doing them, or for getting them wrong. Additional marks can be earned on an assignment or quiz by doing unusually thorough or original work. If you want to use methods other than those used in class, please ask first.

Assignments due on a given day are, unless otherwise noted, due anytime that day. They can be submitted to me or at my office. Late assignments are usually not accepted without a good reason and prior agreement. Students who miss class are responsible for making up the missed material on their own time.

Missed Quiz/Rewrite Policy

Students are expected to make every reasonable effort to write the quiz at the scheduled time. A missed quiz usually counts as a 0, so if for any reason it appears that you may miss a quiz:

- **before the quiz**, talk with the instructor about missing the quiz, unless an unforeseen emergency makes this impossible, in which case leave a comprehensive phone message.

- if the instructor has determined that you qualify for a deferred quiz (for instance, medical or compassionate leave), you will be expected to write the quiz before the next class; the quiz is usually left for the student in the math lab. If this isn't possible, make alternate arrangements with the instructor well before the next class after the quiz, unless an unforeseen emergency makes this impossible too. In that case, leave a comprehensive phone message.

Please inquire if you have any questions or concerns about your particular situation.
