## COURSE GUIDELINES & EXPECTATIONS

---

**Attendance:** Camosun College requires mandatory attendance for the first class meeting of each course. If you do not attend, and do not provide your instructor with a reasonable explanation in advance, you will be removed from the course and the space offered to the next waitlisted student. In a class being taught through an asynchronous format, students must log into the D2L course page within the first three days of the semester. Attendance will then be determined by monitoring your login record on D2L.

**Course Format:** The evening version of Camosun courses are shorter in duration than the daytime classes. Because of this, evening classes are comprised of both synchronous and asynchronous content to compensate for the reduced time spent in class. The synchronous content includes two hours and fifty minutes of instruction per week and fifty minutes of asynchronous material. Students are therefore expected to access the asynchronously resources that are made available on the D2L course site and through the recommendations of the instructor to ensure that equivalent material is covered between the evening and day sections of this class.

**Academic Integrity:** All submitted work in this course for assessment is to be your own work. Please see the College-Wide Academic Integrity policy below regarding academic expectations and implications. Examinations are closed-book and held at the time and date scheduled. Please see the School of Business policy below regarding missed examinations and assignments.

**AI tools:** All work in this course must be prepared by you. Use of AI tools is not permitted. Any work submitted must be your own original work unless specifically noted in the instructions by your instructor. Any unpermitted use of generative artificial intelligence (AI), including ChatGPT, Claude, Copilot and Gemini, etc. is prohibited and constitutes academic misconduct. Any student suspected of submitting work that includes AI generated content may be asked for preliminary work or other materials to evidence the student's original and unaided authorship. The student may also be asked to separately explain or support their work. AI

identification methods may also be employed by the instructor. After review, if it is determined by the instructor that submitted work likely contains AI generated content, the work may receive a zero and may be subject to further misconduct measures set out in the See Camosun College (2021) Academic Integrity Policy. <https://camosun.ca/sites/default/files/2021-09/e-1.13.pdf>

**Exam Scheduling:** Please check the Camosun calendar to see the dates for the exam period. Do not schedule holiday/vacation trips during this time as exam dates are not at the discretion of the instructor and may occur at any date and time within the exam period set out by the College. There are no options for online midterm or final exam writing for in-person courses.
