To provide practical experience you will be completing four projects including the preparation of T5s, T4s, a T1 and a GST Project that uses big data.

The GST Big Data Project uses Excel Pivot Tables, you will need to use the desktop version of Office365, which is available free for student download (<https://legacy.camosun.ca/services/its/other-services.html>).

The T1 project uses **Profile 2023** Software (not MAC compatible). A link is provided on D2L if you wish to download the student version of the software to your personal computer. If you have not had experience with Profile software previously, you are strongly advised to review the training from Profile (see link on D2L). The project covers all topics in personal tax.

If you choose to use AI for one of your written assignments, you must DISCLOSE that you have used it and indicate which portion of the text was prepared by AI versus prepared by you. Within your report, you must include a discussion on WHY you used chat GPT, how it helped you, and what areas it left out. Did you make any edits to what it gave you? **If I find that chat GPT has been used and not disclosed, even when permitted, academic integrity penalties will be applied. AI is not appropriate in response to debrief questions or reflections on self-learning, and cannot be used in exams.**
