COURSE GUIDELINES & EXPECTATIONS

ATTENDANCE

Due to the experiential nature of the course, regular attendance is required. As a professional courtesy, students must **independently** inform the instructor by email prior to class about known absences and must plan ahead and submit work prior to the deadline for planned absences. More than three *unexcused** absences may result in a student not passing the course. Informed absences and those given prior permission due to the unavoidable nature of the absence will be *excused*. Please arrive early to class, as late arrivals often result in the disruption of whole class processes. Prompt attendance is a professional responsibility and a requirement of the course. Students should set aside the whole lecture and lab time each week and schedule other appointments outside of class time.

Missing key demonstrations will result in students' processes being delayed. Not all demonstrations can be rescheduled. In the case where it is possible to reschedule a make-up demonstration, the new time will need to be scheduled in consultation with the Instructor and Course Technician, based on the classroom schedule and Technician's availability. Because some tools and techniques have safety requirements, key demonstrations will need to be complete prior to students being permitted to use tools and equipment in the space.

EXTENSION / LATE POLICY

Extensions on assignments may be arranged by consultations with the instructor prior to the due date. Please email your instructor directly in advance of the deadline to request an extension. Extensions will only be granted prior to assignment deadlines and must be requested through student-initiated consultation/negotiation with their instructor (this includes all forms of accommodation). Late assignments (without arrangements made prior to the deadline) will not receive participation marks for that assignment and for graded assignments will be deducted 2% per calendar day. These submissions will NOT be accepted seven days after the due date.

STUDENT RESPONSIBILITY

Enrolment at Camosun assumes that the student will become a responsible member of the College community. As such, each student will display a positive work ethic, assist in the preservation of College property, and assume responsibility for their education by researching academic requirements and policies; demonstrating courtesy and respect toward others; and respecting expectations concerning attendance, assignments, deadlines, and appointments.
