COURSE GUIDELINES & EXPECTATIONS

1. Exploration, Innovation & Risk Taking
2. Skills Acquisition & Overcoming Challenges
3. Formal Unity of Idea and Work
4. Professionalism/Consistency/Achieving Original Goal

Your course work will be evaluated by the degree of **intensity** and the **quality** of work you produce.

The involvement factor would include participation in class activities (critiques) and the commitment to your own work and the problem solving in both content and formal concerns of that work. You are expected to work for 6 hours per week in class and for a minimum of 4 hours of self-directed homework per week.

The quality factor is based on the success of the work. The critiques throughout the semester and visiting artists/instructors will all feed into this evaluation factor.

1. The quality of ideas: Intensity of exploration, inventiveness and risk-taking, inquisitiveness, research & homework, and consistency of practice
2. The success of the work relative to the original planning proposal and to evolving concerns i.e. content. How you rigorously you investigate and explore art concepts/theories from your research
3. The aesthetic quality of the work produced i.e. form: your ability to effectively deal with the formal “construction & presentation” of the work
4. Class/critique involvement: peer reviews and class participation, visiting artist reviews, preparedness for class critiques and reading discussions
5. Studio Conduct & Etiquette Grade.
 - a. Students will start the semester with 10/10 for their Studio Habits grade; marks will be deducted if students neglect to demonstrate safe respectful use of communal facilities, studio interactions and material provisions. This includes returning all A/V equipment within specified borrowing time. Students will be evaluated on their ability to clean up after themselves (or their group) each day before leaving the studio. Works left in common spaces 30 minutes prior to the next class start time, or 9a.m. the next day will result in an immediate deduction of 3% per work (i.e. a painting left out to dry overnight not in designated storage spaces in Y117). Work may only be stored in designated storage areas (or with special permission of instructor

and instructional technician). *Failure to properly store, remove or dispose of projects during the semester and / or within the deadlines communicated at the end of the semester will result in a deduction of 5% per work.

Notes:

- Studio Practice is a high risk-high return endeavour. (i.e. Low risk low return)
- See yourself as a pro at whatever profession you choose
- Being consistent is desirable
- Working smart is smart
- Doing nothing is assured failure
- Weekly timely reporting is how you stay accountable
- There are no mid-term interviews so don't surprise yourself at the end. Check in w your mentor as appropriate. Better frequently than less.
- No crit dates except for the ones you set. There are three formal points for class feedback you have to target.
- At each of these points you have to show everything research every step via objects and presentations
- An artist statement is needed

Through conceptualizing, planning and executing their own projects, you will explore a wide variety of materials and media and discover the relationships between materials and concepts. You will practice the discipline necessary to produce successful work in a self-directed situation, not supported by project structures and boundaries. You are encouraged to expand the boundaries art-making making by incorporating disciplines such as printmaking, photography, video & performance, constructions, and installation into your projects.

There will be two major group critiques during the semester and you will be expected to complete at least one project or progress report per critique¹. The size and scope of each project will be discussed with your instructor. The group critiques provide you with further experience in analyzing and discussing the form and content in your own work and of others. The instructor will also meet with you on an on-going basis throughout the semester for individual critiques; there will be a continual evaluation of your work and further equipment demos with the technician if needed. You will gain further experience with the effective presentation of two-dimensional artwork through consideration of lighting, placement and site-specificity.

¹ As an example, expect to put in for the first report, at least 16 hours of work. Add at least additional 10 hours minimum for each subsequent report. The time you put in will show in the quality of work; it will appear in the depth of research, in the experimental or testing stages, or in the process of making. It is far better to fail spectacularly than to be safe. Do a million little things if you are stuck; do little "quick and dirty" studies; look at them as sketches or notations. Do a few hundred of them. Something really interesting and unimaginable will happen. Get into the process, trust the process. The process will take you forward. It takes time, it takes commitment, and it takes courage. That is Creativity.

There will be several videos of both historical and contemporary work by artists who work in two-dimensional media and will be assigned reviews of exhibitions, visiting artists' lectures and various reading assignments.

During class time, you are expected to make full use of the studio classroom. Your teacher is around to help you make progress, discussions before commencing on projects are vital to the success of your research. Discussions before collecting materials or building are important; it will save you time and money. **Research, collecting material and supplies are considered homework and should be done outside of class time.** However you should optimize your time while waiting to get help to do research while waiting to see your teacher. Access to a laptop computer is useful during the initial stages of your project; likewise art databases and art theory text are useful tools for your research.

Research can be defined broadly as (active) reading, drawing, writing, modeling, discussing, interviewing, watching, noting, or any other means of aggregating information that would directly help you crystallize your ideas, concepts, and making.

The ultimate goal is to create high value works of art. High value work is usually defined by work that is very difficult or almost impossible to reproduce.

SCHOOL OR DEPARTMENTAL INFORMATION

1. Students registered with CAL (Centre for Accessible Learning), who wish to have academic accommodations active in their course, are required to confirm that each of their instructors has received a memo from CAL
2. Students who are registered with CAL are required to know and understand the details of their accommodations and to be aware of CAL frameworks
3. In order to receive an **extension on an assignment**, each student must initiate a conversation with their instructor at least 5-week days before the deadline to negotiate and establish a new deadline. Students are reminded that all extensions for course work are limited to semester end date (last of day of class) there may be circumstances where a student experiences a quick onset of disability symptoms where such notice is not practicable. In these cases, these guidelines can be helpful for course instructors. <https://camosun.libguides.com/AcademicAccommodations/OOCAccomms>
4. **Student absence.** If students need to leave a class or lab or are unable to come to class or lab because of illness, COVID, mental health, etc., it falls upon the student to contact the instructor about their absence. Students are required to take the necessary steps to get caught up in a timely manner on missed material including demos. Students may confer with classmates to learn missed material. Please know that instructors and technologists do not conduct one on one instruction with any student who has missed class/lab. However, instructors and technologists are available to answer specific questions.

STUDENT RESPONSIBILITY

Enrolment at Camosun assumes that the student will become a responsible member of the College community. As such, each student will display a positive work ethic, assist in the preservation of College property, and assume responsibility for their education by researching academic requirements and policies; demonstrating courtesy and respect toward others; and respecting expectations concerning attendance, assignments, deadlines, and appointments.
