INSTRUCTOR DETAILS

NAME: David Raju EMAIL: raju@camosun.ca OFFICE: Fisher 342A HOURS: M/Th 2:30-3:30PM

As your course instructor, I endeavour to provide an inclusive learning environment. However, if you experience barriers to learning in this course, do not hesitate to discuss them with me. Camosun College is committed to identifying and removing institutional and social barriers that prevent access and impede success.

CALENDAR DESCRIPTION

An introduction to biological diversity, evolution, ecology, scientific knowledge and the biodiversity crises. Includes a survey of the major taxonomic groups of living organisms, the evidence for evolution, natural selection, the nature of scientific knowledge, and the impact of humans on the ecology of populations, communities and ecosystems.

PREREQUISITE(S):

One of:

- C in English 12
- C in Camosun Alternative

CO-REQUISITE(S):

One of: • C in English 12 • C in Camosun Alternative EXCLUSION(S): Not Applicable

COURSE LEARNING OUTCOMES / OBJECTIVES

Upon completion of this course a student will be able to:

1. Identify and classify living organisms to their major taxonomic groupings, and to list their defining characteristics.

2. Describe the major lines of evidence for evolution.

3. Explain the mechanics of natural selection and speciation.

4. Discuss the nature of scientific knowledge; its limits and strengths, and how it is produced.

5. Explain basic concepts in population and community ecology.

6. Recognize and explain the major threats to biodiversity and ecosystem processes, and ways in which these threats might be mitigated.

REQUIRED MATERIALS & RECOMMENDED PREPARATION / INFORMATION

Learning materials will be provided including a biology e-textbook.

COURSE SCHEDULE, TOPICS, AND ASSOCIATED PREPARATION / ACTIVITY / EVALUATION

The following schedule and course components are subject to change with reasonable advance notice, as deemed appropriate by the instructor.

BIOLOGY 102-001A/B SCHEDULE:

Monday Lecture from 1:00-2:20 PM in Fisher 268 Thursday Lecture from 1:00-2:20 PM in Fisher 302

Friday Lab B from 9:30-12:20 and Lab A from 1:30-4:20PM in Fisher 226

Students registered with the Centre for Accessible Learning (CAL) who complete quizzes, tests, and exams with academic accommodations have booking procedures and deadlines with CAL where advanced noticed is required. Deadlines can be reviewed on the <u>CAL exams page</u>. <u>http://camosun.ca/services/accessible-learning/exams.html</u>

EVALUATION OF LEARNING

DESCRIPTION		WEIGHTING
Lecture Assignments (24 assignments X 2 percent)		48%
Lab Reports (13 reports X 4 percent)		52%
	TOTAL	100%

If you have a concern about a grade you have received for an evaluation, please come and see me as soon as possible. Refer to the <u>Grade Review and Appeals</u> policy for more information. <u>http://camosun.ca/about/policies/education-academic/e-1-programming-and-instruction/e-1.14.pdf</u> On the first day of class you will email the instructor raju@camosun.ca the following information:

- 1) Subject line of email: "Your Full Name"
- 2) In the body of the email:
 - a) Once again your full name
 - b) Your student number
 - c) Your section (001A, 001B)
 - d) What day and time is your lab? What room is it in?
 - e) What days and times are your two lectures? What room(s) are they in?
 - f) The email address you are using to send this email (DO NOT USE D2L).
 - g) Any Questions you may have about the Course outline thus far that wasn't answered on the first day of classes, would like repeated, or feel more comfortable asking by email.

This course has been carefully designed so that the only stress there is will be the stress you create for yourself. I am well aware that proper learning can't take place if stress is present and so I will do my part to provide a proper learning environment but this can't be accomplished without you doing your part. And so complete assignments ahead of time so that you have time to ask questions before the due date, show up to lab early, follow all directions carefully, and most of all have fun. The course is not based on memorization and regurgitation teaching methods but rather is based on learning through student centered processes such as active learning and discovery to achieve the learning outcomes of the course. The learning is in the search. In other words those that do the doing do the learning. For meaningful and long lasting learning it is my belief that you can not be a passive participant in the process but rather must be the investigator in an investigation and the investigation you have been assigned is Biology 102. I hope you enjoy the course and make the most of it. After all, you get out of life what you put into it. ⁽²⁾

Sexual Violence

Camosun is committed to creating a campus culture of safety, respect, and consent. Camosun's Office of Student Support is responsible for offering support to students impacted by sexual violence. Regardless of when or where the sexual violence occurred, students can access support at Camosun. The Office of Student Support will make sure students have a safe and private place to talk and will help them understand what supports are available and their options for next steps. The Office of Student Support respects a student's right to choose what is right for them. For more information see Camosun's Sexualized Violence Policy: https://camosun.ca/sites/default/files/2021-05/e-2.9.pdf and camosun.ca/services/sexual-violence-support-and-education.
