## EVALUATION OF LEARNING

DESCRIPTION	WEIGHTING
12 Labs (12 X 4)	48
25 Lecture Assignments and 1 exam (26 X 2)	52
<b>TOTAL</b>	<b>100%</b>

If you have a concern about a grade you have received for an evaluation, please come and see me as soon as possible. Refer to the [Grade Review and Appeals](http://camosun.ca/about/policies/education-academic/e-1-programming-and-instruction/e-1.14.pdf) policy for more information. <http://camosun.ca/about/policies/education-academic/e-1-programming-and-instruction/e-1.14.pdf>

## COURSE GUIDELINES & EXPECTATIONS

On the first day of class you will email the instructor [raju@camosun.bc.ca](mailto:raju@camosun.bc.ca) the following information:

- 1) **Subject line of email: "Your Full Name"**
- 2) **In the body of the email:**
  - a) **Once again your full name**
  - b) **Your student number**
  - c) **Your section (001A, 001B, 002A, or 002B)**
  - d) **What day and time is your lab? What room is it in?**
  - e) **What days and times are your two lectures? What room(s) are they in?**
  - f) **The email address you are using to send this email (DO NOT USE D2L).**
  - g) **Any Questions you may have about the Course outline thus far that wasn't answered on the first day of classes, would like repeated, or feel more comfortable asking by email.**

**This course has been carefully designed so that the only stress there is will be the stress you create for yourself. I am well aware that proper learning can't take place if stress is present and so I will do my part to provide a proper learning environment but this can't be accomplished without you doing your part. And so complete assignments ahead of time so that you have time to ask questions before the due date, show up to lab early, follow all directions carefully, and most of all have fun. The course is not based on memorization and regurgitation teaching methods but rather is based on learning through student centered processes such as active learning and discovery to achieve the learning outcomes of the course. The learning is in the**

**search. In other words those that do the doing do the learning. For meaningful and long lasting learning it is my belief that you can not be a passive participant in the process but rather must be the investigator in an investigation and the investigation you have been assigned is Biology 124. I hope you enjoy the course and make the most of it. After all, you get out of life what you put into it. 😊**
