SCHOOL OR DEPARTMENTAL INFORMATION

Mandatory Attendance at the First Class

Students are required to attend the first class meeting of each course. If a student does not attend and does not contact the instructor prior to the first class with a satisfactory explanation, they forfeit their seat in the course and may be de-registered.

Academic Honesty

The School of Business is committed to promoting competence, professionalism and integrity in our students and developing their core skills to succeed throughout their academic programs and in their careers. The purpose of these guidelines is to provide clear expectations of appropriate academic conduct and to establish processes for discipline in appropriate circumstances. It is the **student's responsibility** to become familiar with the definition and consequences of academic dishonesty.

Acts of academic dishonesty include, but are not limited to:

- Using the exact words of a published or unpublished author without quotation marks and without referencing the source of these words.
- Duplicating a table, graph, or diagram, in whole or in part, without referencing the source.
- Paraphrasing the ideas of another person, whether written or verbal, without referencing the source.
- Providing answers to another student in any test, examination, or take-home assignment.
- Taking unauthorized materials into an examination or test.
- Submitting the same paper or portions thereof for more than one assignment in different courses without the instructor's permission.

Use of AI-Based Writing Tools

This is specifically about ChatGPT but applies to using any artificial intelligence technology in this class. ChatGPT is an AI-based language model that can generate human-like text and is available to students in this course. However, its use is limited to idea generation only. The purpose of this section is to outline the guidelines for using ChatGPT in this course and to specify the restrictions on its use.

- Students may use ChatGPT or other AI-based language models to assist with generating ideas or writing prompts, but the final product must be their own original work. It is essential that students recognize the importance of generating their ideas and thoughts to enhance their critical thinking, problem-solving, and decision-making skills. Therefore, the use of ChatGPT should be seen as a supportive tool, rather than a replacement for students' ideas and efforts.
- Students are not permitted to use ChatGPT or other AI-based language models to complete assignments or exams. Any use of ChatGPT or other AI-based language models for such purposes will be considered academic dishonesty and will result in appropriate action being taken, in line with the College's academic integrity policies.
- If using ChatGPT or other AI-based language models to generate ideas, students must cite the use of ChatGPT or other AI-based language models in their work, following the style guidelines for the course.
- Students are responsible for understanding the limitations and potential biases of ChatGPT and other AI-based language models and for critically evaluating their output.
- The use of ChatGPT or other AI-based language models is not a substitute for participating in class discussions or completing course readings.

If you are uncertain or have any questions regarding academic integrity, please do not hesitate to discuss these with your instructor.
