EVALUATION OF LEARNING

DESCRIPTION	WEIGHTING
Labs (5 experiments)	25%
Test 1 (Week 5 Lab period— 110 min)	20%
Test 2 (Week 9 Lab period—110 min)	20%
Final Exam (comprehensive)	35%
TOTAL	100%

If you have a concern about a grade you have received for an evaluation, please come and see me as soon as possible. Refer to the [Grade Review and Appeals](http://camosun.ca/about/policies/education-academic/e-1-programming-and-instruction/e-1.14.pdf) policy for more information.

COURSE GUIDELINES & EXPECTATIONS

There is an expectation that students complete FIVE laboratory experiments, along with the associated assignments. Post-lab assignments will be submitted on, or before your next laboratory class, unless you have prior accommodation through CAL, or have requested an extension due to extenuating circumstances. You must hand in your own assignment and pre-lab assignment, regardless of whether you have worked with a partner and obtained the same data.

The student must pass both the lecture portion and the laboratory portion in order to pass the course. Minimum final score of 50% on laboratory work is required.

In the event of the term test being missed due to illness/other commitments (excused absence) the weight of the missed test will be carried over to the final. There are no make-up dates for term tests, no exceptions. An excused absence will only be considered for a maximum of one term test.

If it is advantageous to the student, the weight of the single test that has the lowest score (that includes the zero score of the excused missed test, see above) will be redistributed to the final exam. The final exam will not contribute more than 50% towards the final grade.
