COURSE GUIDELINES & EXPECTATIONS

How are courses evaluated in the Electronics and Computer Engineering department?

In addition to the evaluation scheme addressed above, courses that are a prerequisite must meet the following overriding criteria to pass a course. The reason for these additional criteria is to ensure your success in subsequent courses with a balance of skills in both theory and practice.

The following criteria must be met:

- **Attendance is expected for every class. Students who attend and participate do better than those that don't.**
- **A student is required to inform the instructor prior to being late or missing a class, or as soon as possible.**
- **Students must obtain a minimum weighted average of 60% in theory evaluations (tests, examinations, etc.) in any course that is a pre-requisite for subsequent courses.**
- **Students must obtain a minimum weighted average of 60% in lab evaluations (lab performance, reports, etc.) in any course that is a pre-requisite for subsequent courses.**
- **Students must obtain a minimum of 50% on the final examination for a course in order to receive a passing grade.**
- **All Labs must be completed before or by the end of the lab period.**
- **All Packet Tracers must be completed before or by the due date/time (homework).**
- **Late assignments will have marks deducted; if handed in after assignments are returned to the class, then no mark will be awarded, but the assignment must be submitted.**
- **No opportunity will be available to write missed module exam.**
- **All assignments (laboratory work, reports, etc.) must be submitted prior to a student writing a final examination. All assignments must be submitted in order to qualify to write a final exam.**
- **No late materials (labs/packet tracer) will be accepted past midnight of the last day of the course.**
- **Failure to meet any one of these criteria will result in a student receiving a failing grade for the course.**
