EVALUATION OF LEARNING

DESCRIPTION	WEIGHTING
Quizzes	10%
Midterm #1	25%
Midterm #2	25%
Final Exam	40%
	TOTAL
	100%

If you have a concern about a grade you have received for an evaluation, please come and see me as soon as possible. Refer to the [Grade Review and Appeals](http://camosun.ca/about/policies/education-academic/e-1-programming-and-instruction/e-1.14.pdf) policy for more information.

<http://camosun.ca/about/policies/education-academic/e-1-programming-and-instruction/e-1.14.pdf>

Quizzes:

There will be a number of online quizzes during the term. You will complete the quizzes on your own time. For each quiz, you will be allowed up to three attempts with your highest score counting toward your grade.

Of all the quizzes, your lowest quiz score will be dropped and the remaining quizzes will count equally toward your final grade. This allows you to miss a quiz when sick and still not impact your final grade.

Please note that it is your responsibility to ensure that your computer is properly set up to work with D2L. No allowance will be made for quizzes that couldn't be completed due to computer issues.

Exams:

There are two midterm exams and a final exam for this course.

Students are allowed one 8 ½ x 11 sheet (both sides) on which to place any information they feel will help them to write the exam (except for copies of old exams). Typically, this would be formulae and examples from class. The sheet must be handwritten and you are required to submit it in with your exam. In addition, you will need your calculator (you must have the TI BAII+ as detailed above).

Cell phones, watches, music players, translators or similar devices are not permitted during exams. Students found with these devices will receive a score of zero on the exam. You may, however, use your phone after submitting your exam to scan and submit your worksheets.

Please see the section below for further information on exam requirements.

COURSE GUIDELINES & EXPECTATIONS

Students must be proficient with basic math and algebra techniques. In addition, it is expected that students are familiar with the operation of their calculators, and that they will participate in course activities and stay current with their homework.
