COURSE GUIDELINES & EXPECTATIONS

Quizzes: There will be a number of online quizzes during the term. You will complete the quizzes on your own time. For each quiz, you will be allowed up to three attempts with your highest score counting toward your grade.

Of all the quizzes, your lowest quiz score will be dropped and the remaining quizzes will count equally toward your final grade. This allows you to miss a quiz when sick and still not impact your final grade.

Please note that it is your responsibility to ensure that your computer is properly set up to work with D2L. No allowance will be made for quizzes that couldn't be completed due to computer issues.

Exams: There are two midterm exams and a final exam for this course.

Students are allowed one 8 ½ x 11" sheet (both sides) to place applicable formulae. No question examples are permitted on this sheet. The sheet must be handwritten and you are required to hand it in with your exam. In addition, you will need to bring your calculator (the TI BAII+ as detailed above).

Cell phones, watches, music players, translators or similar devices are not permitted during exams. Students found with these devices will receive a score of zero on the exam.

It is expected that students are familiar with the operation of their calculators, and that they will participate in course activities and stay current with their homework.

Please see the section below for further information on exam requirements.
