COURSE GUIDELINES & EXPECTATIONS

Exams: Students should avoid making prior travel, employment, or other commitments for this period. If a student is unable to write an exam through no fault of his or her own for medical or other reason, valid documentation must be provided and it must be discussed with the instructor well in advance of the exam date. If the student is absent for an exam (written or practical) and has not made arrangements with the instructor in advance, a zero grade will be applied.

***PRACTICAL COMPONENT MARKING SCHEME (28% of course grade):**

A large component of this course is practical ("learn to" in nature) and therefore attendance and participation in each activity is strongly recommended. **For each lab/practical session, participants will be provided with an assignment that must be submitted at the end of the session.** Attendance will be taken during lab/practical session. If you are late, it is YOUR responsibility to ensure you have been marked as present & that you obtain & submit the designated assignment. Each lab/practical session you will be assigned a grade out of 3 as follows for participation/contribution:

3/3	Punctual arrival/stays until end of class, good class participation/contribution, positive attitude/effort, assignment submitted.
2/3	Missing one of the above.
1/3	Missing two of the above.
0/3	Unexcused absence.

In consultation with the instructor, any student who was unable to attend a lab/practical session may be required to perform a make-up assignment or attend a make-up session. This consultation must occur within 1 week of the excused absence.

Professional standards for students

- Students are expected to exhibit polite, mature and respectful behaviour in class (lectures, labs, seminars or practicums) and actively participate as needed.
- Students are expected to arrive for class on time. This is especially critical when there are guest speakers for the class concerned. If students are late for a valid reason they should enter by the door at the back of the classroom, if available, with materials out and ready to be used.
- Students are expected to not wear headphones or ear-buds in class. Cell phones, laptops and tablets should only be used at the discretion of the instructor. The consequences of inappropriate cell phone, laptop or tablet use may include a request to leave the classroom and/or potential forfeiture of class participation marks, if applicable. If cell phones must be used or checked during class, please leave the room to do so.
- Students are expected to conduct themselves in a manner that maximizes the learning of all students. If students are distracting other members of class they will be asked to leave the classroom. Please wait until a class-break to take garbage or recyclables to the appropriate bins.
- Students are expected to dress appropriately for the class/lab concerned. If making a presentation in class, students are expected to dress as though making a presentation at an important job interview.
- Students are expected to maintain good personal hygiene standards for all classes. If students have been active immediately prior to a class/lab, they should make an attempt to shower/wash prior to attending class and/or change into clean dry clothing/shoes. Please be considerate to others and do not wear overpowering perfumes or scents.
- Students should not expect instructors, instructional assistants, or any other CSEE staff to answer emails after 5pm or on weekends. While many instructors will check email occasionally after-hours, this is at their discretion and cannot be guaranteed.

Policy on Calculators: Calculators will be permitted during tests. Permission is restricted to non-programmable calculators only. Cell phone calculators cannot be used.

Policy on Cell Phones, other Electronic Devices (iPods etc.): Cell phones and other electronic devices are not to be used during scheduled class and lab times.

Exam and Assignment Scheduling Policy: The course exams and assignments are pre-scheduled by the instructor and written or due as outlined in this course outline.

Late Assignments: Late assignments will not be accepted. If a student will miss a class due to illness, it is expected that the assignment will be emailed to the instructor prior to the date and time that it is due.

Papers and/or assignments that are deemed unacceptable by the faculty will be returned and receive an automatic 10% deduction on the grading of said item. Papers and / or assignments will receive a 10% per day deduction thereafter. After the 5th day the assignment will receive a grade of 0%. Failure to turn in an assignment may result in an incomplete final grade being assigned for the course.

Reasons that a faculty may deem an item unacceptable include but are not limited to the following:

- Grammar
- Spelling
- Content
- Punctuation
- Inappropriate referencing /citations
