Options – (1/2 page)

- a) Identify at least three *mutually exclusive* types of options:
1. *status quo* / risk of not changing;
 2. *incremental or slow change* / moderate risk / moderate payoff; and
 3. *significant or fast change* / greater risk / greater payoff.

Use a table format to summarize the 'pros' and 'cons' of each option.

Note - you may end up recommending options from all three categories.

STATUS QUO OPTIONS	PROS	CONS
a) status quo (describe)	• point form pros	• point form cons
b) status quo (describe)	•	•
INCREMENTAL CHANGE OPTIONS		
c) incremental or slow change (describe)	• point form pros	• point form cons
d) incremental or slow change (describe)	•	•
e) incremental or slow change (describe)	•	•
SIGNIFICANT CHANGE OPTIONS		
f) significant or fast change (describe)	• point form pros	• point form cons

 - relevant information from your exploratory research,
 - the questionnaire, and
 - other materials that support your research.
- d) Electronic (only) submission:
 - detailed primary research results (raw data, cross-tabs, histograms, correlations, etc.) as an Excel file submitted electronically to the D2L Assignment Box.

Each team will make its recommendations in a formal boardroom simulation, which will last about 25 minutes, including questions.

Use the **direct method** for your presentation, i.e., state your recommendations first, then explain how you reached them.

Assume your audience is intelligent but uninformed. The board has decisions to make and is relying on you for advice about how to allocate the organization's resources.

Professionalism counts – this includes:

- the quality of your content and analysis,
- the clarity and impact of your slides,
- your fluency in the vocabulary of your topic,
- your readiness to answer questions,
- the confidence portrayed in your delivery,
- your physical presentation, dress, & comportment, and
- your ability to engage your audience.

***Assume the Board Chair will interrupt your presentation,
and could ask almost anything.***

Be prepared...
