COURSE GUIDELINES & EXPECTATIONS

Students participate in role-playing activities to practice skills with each other. Please be aware that learning what the human body feels like in a healthy condition is important when it comes to recognizing unhealthy or injured states. While learning to do assessments, students will need to palpate other students on a regular basis.

Students will maintain optimum levels of safe behavior (personal hygiene, decontamination of personal protective equipment, use of proper body mechanics, etc.) with minimizing the potential for disease transmission.

Students must come appropriately dressed to allow for hands on application / demonstration of assessment techniques.

Low cut shirts, pants / shorts that expose underwear, and flip flop sandals are NOT acceptable dress for labs.

Students that do not come prepared to actively participate (appropriate dress, textbooks, etc.) may be asked to leave.
