This course consists of 6 hours of class time and 4 hours of lab time per week. Lab time includes but is not limited to tutorials with an instructor and/or instructional assistants and using the instructional resources in the Help Centre and library, virtually and in person. The course completion time will vary for each student, depending on a number of factors, including students' current level of math skills, motivation, learning rate, and time devoted to study. Students have a responsibility to work hard, attend class and/or meetings, and ask for support when needed.

SCHOOL AND DEPARTMENTAL INFORMATION

Community Learning Partnerships (CLP), a department of the School of Access, brings education to community-based sites to make it easier for students to begin or return to learning in a less intimidating place than on the college campus. Students can build or refresh their skills to meet admission requirements and be successful in other college programs. Students learn in a comfortable environment with other adults who share similar backgrounds and get help from friendly and compassionate Camosun instructors and staff.
