COURSE GUIDELINES & EXPECTATIONS

Learners must demonstrate competence and be approved by the lab instructor for each skill before being able to perform the skill in nursing practice. If a learner misses a lab class, it is the learner's responsibility to study the theory and to practice the missed skill. Students who miss a lab (skill) are required to arrange a time to demonstrate competence in the skill and be approved by the lab instructor before performing the skill in nursing practice. Students have until the end of the exam period to demonstrate the skill, otherwise their grade for the lab course will be an F.

To honour BCCNM professional standards, the Health Professions Act, and our legal affiliation agreements with health authorities, students cannot practice skills and assessments in the nursing practice areas until they have learned the theory and practiced that skill or assessment in the nursing lab.

SCHOOL OR DEPARTMENTAL INFORMATION

Students are required to read and are accountable for following College policies and practicum guidelines as described in the BSN and HHS Student Handbooks.
