Course Description:

This course will provide students with a practical, hands-on work experience where the student will gain experience, evaluate their employment goals, and evaluate their job readiness. Upon completion of a work experience, the student will receive an evaluation from the employer. The evaluation will be used by the student and his or her instructor to assist in the assessment of the student’s job readiness and in the establishment of vocational goals.

What You Will Learn: The student will be able to:

- demonstrate an understanding of the work habits and industry standards in selected work experiences
- demonstrate an understanding of the evaluation method of employers in selected work experiences
- demonstrate the appropriate social, communication, work skills, habits and behavior needed to be safe and effective in the work setting
- evaluate personal skills, abilities, work skills, habits, performance and compatibility with the type of work chosen

Required Materials:

Appropriate clothing to complete the work experience in the customer service sector.

Evaluation

Students will be assessed by a supervisor from his or her work experience and a work experience supervisor from the college. The evaluation will assess the student’s readiness for employment in a particular job and identify what improvements, if any, must be made to be employed in that type of work.
