2. Course Materials and Support

Required Materials:
     a) M.L. Bittinger, *Intermediate Algebra*, 11th Edition, Addison-Wesley, Boston, 2011
     b) The only calculator allowed on tests and the final exam is the Sharp EL-531W scientific calculator.

Supplementary Materials:
     a) Math 137 Course Pack, Frost
     b) Student's Solutions Manual, Judith Penna (for sale at the bookstore, reference library)
     c) Videotapes and CD's covering each section of the text in the library viewing room (free-3 day loan)
     d) MathXL (online text, tutorials, videos, and self-testing)
       - The access code can be purchased online at www.mathxl.com . Once you're registered choose 'Independent Study' and then your textbook.

Study Tips: It is recommended that approximately 8-12 hours per week be spent studying for this course outside of class time. Find a study buddy to discuss math problems and get notes if you have to miss class.

Math Labs: Ewing 342 & 224 (LANS)and Tec142 (INT)**:** These drop-in centres are available for you to work on math homework and to seek free help from the tutor on staff.   See the hours posted on the math lab doors (most current) or go to http://camosun.ca/learn/programs/math/labs.html

3. Prerequisites and Exit Grade

Prerequisite(s):   "B" in Applications of Math 11; or "C" in Principles of Math 10, or Foundations of Math & Pre-calculus 10, or Foundations of Math 11, or Applications of Math 12, or MATH 053; or "C-" in Principles of Math 11, or Pre-calculus 11; or assessment.

Exit Grade and Course Options:

B for Math 115	C+ for Math 105, 107, 109	C for Math 112

4. Basis of Student Assessment (Grading)

Assignments: The Review Assignment is a handout that has been e-mailed to you and is available from your teacher.   It is due on the 2nd day of class. Please note that the purpose of Asst R is to help determine if you have the pre-requisite knowledge for the course, it does not prepare you for all the content in Test 1.

There are 4 other assignments which are based on questions from your textbook and will help prepare you for Tests 2-5. **Submit your homework assignments on the templates provided in class or print them from the website.** Each question should be written with a full solution, not just the answer.

Assignments are due **by 5:00pm** on the designated day (see pacing schedule) and assignment keys will be posted on the website shortly afterwards.
Late assignments will NOT be accepted. All assignments count.

Tests: There are 5 in class tests. The dates and topics are on the pacing schedule. If you miss a test for any reason (including illness, sleeping in, getting called into work etc.) a zero will be assigned, however, only the best four tests will be counted. If you must miss more than one test due to illness contact me via e-mail before the test to make alternate arrangements.

Grade Calculation: The final grade will be calculated according to the following breakdown:
           5 Assignments and Trig exercise: 10%
           5 Tests   40%*
           Comprehensive Final Exam: 50% or 100%**

*The lowest of the five test marks will be dropped when calculating the test average.

**If your term average is at least 50% and if your final exam mark is higher than your term average, then your final course grade will be based 100% on your final exam mark.

Grade Scale:

0-49	50-59	60-64	65-69	70-72	73-76	77-79	80-84	85-89	90-100
F	D	C	C+	B−	B	B+	A−	A	A+
