At completion of the course students will be able to...

- Use math vocabulary related to place value, estimating, ordering, adding, and subtracting whole numbers to 100.
- Identify place value and compare the magnitude of whole numbers.
- Round whole numbers to the nearest 10.
- Add whole numbers without carrying.
- Subtract whole numbers without borrowing.
- Count by 2s, 5s, and 10s.
- Use addition and subtraction to solve one-step application problems.
- Identify basic geometric shapes and time units.
- Work independently on the materials provided, and ask for help when needed.
- Use strategies to organize work and notes, and to manage time and math anxiety.

3. Required Materials

(a) textbook: *Adult Literacy Fundamental Mathematics Book One*

Supplementary Materials

(b) three-ring binder, lined paper, graph paper

(c) pencils, eraser, ruler, highlighter, file cards

4. Course Content and Schedule

2013W Semester classes run from January 7 - April 12, 2013

Our class meets on **Tuesday** and **Thursday** afternoons.

Other important dates:	February 11	Holiday, College Closed
	February 21-22	Reading Break
	March 12	Withdrawal Deadline
	March 29, April 1	Holiday, College Closed
	April 11	Last class
	April 16	Final Tests

Self-paced Instructions

- for each topic of the book listed below, study the explanations and examples, then work through and check your answers to as many exercise problems as you need to fully understand
- ask for help when you have difficulties, or when you don't understand something
- complete the Self-Tests for each topic and check your answers, then to prepare for the unit Final Test, complete the Review problems at the end of each unit
- after clearing up any problems and correcting your errors, ask your instructor for authorization to write the unit Final Test
- review your Final Test results with the instructor, and proceed to the next unit if you score 75% or better, or rewrite the Final Test if you score less than 75%
- calculators may not be used on the Final Tests, unless approved by the instructor

The course completion time will vary for each student, depending on a number of factors, including your current level of math skills, motivation, learning rate, and how much time you have to study math, either at the college or at home. Students generally need to spend 5–15 hours of study time per week to complete each math course within a reasonable amount of time.
