3. Math Lab: Ewing 342

This is a drop-in centre where you can work on your math homework by yourself or with your classmates and get free help from a tutor.

4. Required Materials:

(a) textbook: *Intermediate Algebra*, 11th edition, Marvin Bittinger

(b) scientific calculator: The Sharp EL 531W model will be the only calculator allowed for this course and most math courses at Camosun.

Supplementary Materials

(c) *Student's Solutions Manual*, Judith Penna (for sale at the bookstore, reference library)

5. Prerequisites:

Prerequisite for Math 073: C+ in Math 072 (or 062), or a C in Math 11, or assessment

Prerequisite for Math 115 (Math 12): Recent B+ (80%) in Math 063/073.

6. Workload/Tips for Success

Out-of-class Workload: 5-10 hours each week.

1. Please do your homework every day. If you fall behind, it will be difficult to catch up. This is not a course that you can put on the "back burner".
2. Attend and participate in every class.
3. If you don't understand something seek help right away. Help is available from friends, your instructor, the tutor in the math room, plus MATHXL.com. Course ID XL0E-T1PP-801Y-42L2
4. Work thoughtfully through the material; don't just try to get it done. LEARN TO LEARN

7. Course Objectives:

The four very ambitious objectives of the course are:

- To learn the basic algebra skills necessary to be successful both in your chosen field of study and in future math courses. This involves learning the vocabulary, notation, rules, and techniques of intermediate algebra, as well as solving applied problems.
- To be able to solve problems involving simple calculations without the aid of a calculator.

- To learn to write mathematics correctly and also to be able to write about the mathematics that you are learning.
- To be able to talk about the mathematics you are learning.
