

School of Access Community Learning Partnerships MATH 053 S18 Intermediate Mathematics 2 Course Outline – Fall 2014

Instructor: Morgan Sargent E-mail: <a href="mailto:sargentm@camosun.ca">sargentm@camosun.ca</a> Phone #: 250-386-1043 ext. 313 Class Hours: Tu & Th 12:30-3:20 Office Hours: By Arrangement

#### Calendar Description

This course covers the second part of ABE Intermediate Math, and provides the introductory algebra and problem-solving skills required for further study in advanced-level algebra, math for technology, and any course or program that requires Math 10. Topics include: real numbers, algebraic expressions, equations, inequalities, graphing, and polynomials.

### Prerequisite(s): MATH 052, or assessment.

http://camosun.ca/learn/calendar/current/web/math.html

### **Required Materials**

- (a) textbook: *Developmental Mathematics*, 7<sup>th</sup>/8<sup>th</sup> edition, Marvin Bittinger/Judith Beecher
- (b) scientific calculator (Sharp EL-531X or EL-531W for next level MATH 072 or 135)

# **Course Content and Schedule – Self-paced Instructions**

The course is designed to be completed in one term. However, it can be completed sooner, depending on a number of factors including the students' beginning level of math skills, motivation, learning rate, and how much time they can actually study (average 15 20 hours per week to complete in 4 months).

If you do not understand something seek help right away. In addition to online, resources include your family and friends, your instructor, and /or the Math Tutor Center.

Contact your instructor to get permission to write the unit exam. These exams will be written face-to-face.

**Grade Calculation<sup>1</sup>:** 5 Unit Exams worth 75% and a Final Exam worth 25%

<sup>&</sup>lt;sup>1</sup> As this is a mastery-based course, the goal for each test is 75% or better. If you scored less than 75% then you will need to rewrite the test before you continue. Note: Tests can only be rewritten once for a total of two times and all test scores are averaged to calculate a final mark

## **Intended Learning Outcomes**

(complete ABE Intermediate Mathematics learning outcomes at ABE Articulation Handbook website <u>http://www.aved.gov.bc.ca/abe/docs/handbook</u>.pdf)

At the end of the course, students will be able to:

- 1. use mathematics at an ABE Intermediate level with competence
- 2. demonstrate knowledge and skills in using the language, principles, and operations of introductory algebra
- 3. apply a variety of strategies in solving math-related problems
- 4. apply knowledge and skills in introductory algebra to solve problems
- 5. use knowledge of introductory algebra as a basis for further study in Advancedlevel algebra, math for technology, and other courses and programs

### **Grading System**

| Percentage  | Grade | Grade Point<br>Equivalency |
|-------------|-------|----------------------------|
| 90-100%     | A+    | 9                          |
| 85-89%      | A     | 8                          |
| 80-84%      | A-    | 7                          |
| 77-79%      | B+    | 6                          |
| 73-76%      | В     | 5                          |
| 70-72%      | B-    | 4                          |
| 65-69%      | C+    | 3                          |
| 60-64%      | С     | 2                          |
| 50-59%      | D     | 1                          |
| <50%        | F     | 0                          |
| In Progress | IP    | N/A                        |

# MATH 053 S18 Intermediate Mathematics 2 Course Outline – Fall 2014

# MATH 053 course content

| Unit R: Arithmetic Review                     |   |  |
|---|---|--|
| (no calculator)                               |   |  |
| R.1   | Place value   |  |
| R.2   | Comparing numbers                                   |  |
| R.3   | Rounding numbers                                    |  |
| R.4   | Adding and subtracting whole                        |  |
|   | numbers and decimals                                |  |
| R.5   | Multiplying whole numbers and                       |  |
|   | decimals  |  |
| R.6   | Dividing whole numbers and                          |  |
|   | decimals  |  |
| R.7   | Order of operations                                 |  |
| R.8   | Operations with fractions                           |  |
| R.9   | Equivalent fractions                                |  |
| R.10  | Adding and subtracting fractions                    |  |
| R.11  | Multiplying fractions                               |  |
| R.12  | Dividing fractions                                  |  |
| R.13  | Converting fractions and                            |  |
|   | decimals  |  |
| R.14  | Estimation  |  |
| Unit R final test (no calculator)             |   |  |
| Unit  | 1: Real Numbers and Algebraic                       |  |
|   | Expressions   |  |
| 7.1   | Introduction to algebra                             |  |
| 7.2   | The real numbers                                    |  |
| 7.3   | Addition of real numbers                            |  |
| 7.4   | Subtraction of real numbers                         |  |
| 7.5   | Multiplication of real numbers                      |  |
| 7.6   | Division of real numbers                            |  |
| 7.7   | Properties of real numbers                          |  |
| 7.8   | Simplifying expressions; order of                   |  |
| Current                                       | operations  |  |
| Sum   | nary & Review and Chapter Test<br>Unit 1 final test |  |
|   |   |  |
| Unit 2: Solving Equations and<br>Inequalities |   |  |
| 8.1   | Solving equations: the addition                     |  |
|   | principle   |  |
| 8.2   | Solving equations: the                              |  |
|   | multiplication principle                            |  |
| 8.3   | Using the principles together                       |  |

| 0.4                               |  |  |  |
|-----------------------------------|--|--|--|
| 8.4                               | Formulas                                     |  |  |
| 8.5                               | Applications of percent                      |  |  |
| 8.6                               | Applications and problem solving             |  |  |
| 8.7                               | Solving inequalities                         |  |  |
| 8.8                               | Applications and problem solving             |  |  |
| Current                           | with inequalities                            |  |  |
| Summary & Review and Chapter Test |  |  |  |
| Unit 2 final test                 |  |  |  |
|                                   | 3: Graphs of Linear Equations                |  |  |
| 9.1                               | Graphs and applications of linear            |  |  |
|                                   | equations                                    |  |  |
| 9.2                               | More with graphing and                       |  |  |
|                                   | intercepts                                   |  |  |
| 9.3                               | Slope and applications                       |  |  |
| 9.4                               | Equations of lines                           |  |  |
| 9.5                               | Graphing using the slope and y-              |  |  |
|                                   | intercept                                    |  |  |
| Sumn                              | nary & Review and Chapter Test               |  |  |
|                                   | Unit 3 final test                            |  |  |
| Unit 4                            | : Polynomials: Operations and                |  |  |
|                                   | Factoring                                    |  |  |
| 10.1*                             | Integers as exponents                        |  |  |
| 10.2*                             | Exponents and scientific notation            |  |  |
|                                   | * after 10.2, complete                       |  |  |
|                                   | supplementary exercises on                   |  |  |
|                                   | exponents #1-25                              |  |  |
| 10.3                              | Introduction to polynomials                  |  |  |
| 10.4                              | Addition and subtraction of                  |  |  |
|                                   | polynomials                                  |  |  |
| 10.5                              | Multiplication of polynomials                |  |  |
| 10.6                              | Special products                             |  |  |
| 10.7                              | Operations with polynomials in               |  |  |
|                                   | several variables                            |  |  |
| 10.8a                             | Division of polynomials by a                 |  |  |
|                                   | monomial                                     |  |  |
| 11.1ab                            | Introduction to common factoring             |  |  |
| 11.2                              | Factoring trinomials of the type $\vec{x}^2$ |  |  |
|                                   | + bx + c                                     |  |  |
| 11.5cd                            | Factoring differences of squares             |  |  |
| Summary & Review and Chapter Test |  |  |  |
| Unit 4 final test                 |  |  |  |
|                                   | MATH 053 review                              |  |  |
|                                   | MATH 053 final exam                          |  |  |
| J                                 |  |  |  |

MATH 053 S18 Intermediate Mathematics 2 Course Outline – Fall 2014

Recommended Materials or Services to Assist Students to Succeed Throughout the Course

# LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College Calendar, Registrar's Office or the College web site at: http://www.camosun.ca

# STUDENT CONDUCT POLICY

There is a Student Conduct Policy. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, Registration, and on the College web site in the Policy Section, or the College web site at:

http://camosun.ca/about/policies/education-academic/e-2-student-services-&-support/e-2.5.pdf

# STUDENT GRADING POLICY

A new student grading policy is in effect for students in the School of Access. This information is available in the College Calendar, Registrar's Office or the College web site at:

http://camosun.ca/about/policies/education-academic/e-1-programming-&-instruction/e-1.5.pdf

# ACADEMIC PROGRESS POLICY

There is an Academic Progress Policy designed to enhance a learner's likelihood of success. Students should become familiar with the content of this policy. The policy is available in each School Administration Office, Registration, and on the College web site in the Policy Section or the College web site at:

http://camosun.ca/about/policies/education-academic/e-1-programming-&-instruction/e-1.1.pdf
