4. Basis of Student Assessment (Grading)

Assignments: There are 5assignments which are based on questions from your textbook.
                        The assignment questions are listed in the Recommended HW and Assignments
                                document.

                        Assignments are due on the designated days (see pacing schedule) and assignment
keys will be posted on the website shortly afterwards.
                        Late assignments will NOT be accepted.
                        All assignments count.
Tests: **There are 5 in class tests.** If you must miss one test due to illnessor family
                        affliction contact me via e-mail **before** the test to make alternate arrangements.
                         If you don't provide a reason for a missed test you may get a zero on that test.
                        All tests count.

Final Exam: The final exam will cover the entire course and will be 3 hours long.

All final exams will occur during the final exam period, Dec 14-22
Students MUST be available to write the final exam at the scheduled time.
As stated in the current college calendar "students are expected to write tests and final examinations at the scheduled time and place." Exceptions will only be considered due to emergency circumstances as outlined in the calendar. Holidays or scheduled flights are not considered to be emergencies.

Grade Calculation: The final grade will be calculated according to the following breakdown:
                        5 Assignments: 10% Dates TBA
                        5 Tests   40% Dates TBA
                        Comprehensive Final Exam: 50%
All assignments and tests count.
