

# School of Access Community Learning Partnerships Department

### MATH 021 Fundamental Mathematics 1

#### **COURSE OUTLINE**

# The Approved Course Description is available on the College website http://www.camosun.ca/learn/calendar/current/

#### 1. Instructor Information

(a) Instructor: Karen Lightbody

(b) Office hours: 12:30 -1:00 pm and 4:00 - 4:30 Tuesday and Thursday

(c) Location: OFF CAMPUS -- Bridges for Women Society

(d) Phone: <u>250 – 588-8277</u>

(e) Email: <a href="mailto:lightbodyk@camosun.bc.ca">lightbodyk@camosun.bc.ca</a>

## 2. Intended Learning Outcomes

(complete ABE Intermediate Mathematics learning outcomes at ABE Articulation Handbook website http://www.aved.gov.bc.ca/abe/docs/handbook.pdf)

On completion of the course, students will be able to:

- Use math vocabulary related to place value, estimating, ordering, adding, and subtracting whole numbers to 100.
- Identify place value and compare the magnitude of whole numbers.
- Round whole numbers to the nearest 10.
- Add whole numbers without carrying.
- Subtract whole numbers without borrowing.
- Count by 2s, 5s, and 10s.
- Use addition and subtraction to solve one-step application problems.
- Identify basic geometric shapes and time units.
- Work independently on the materials provided, and ask for help when needed.
- Use strategies to organize work and notes, and to manage time and math anxiety.

## 3. Required Materials

(a) textbook: Adult Literacy Fundamental Mathematics Book One

## **Supplementary Materials**

- (b) three-ring binder, lined paper, graph paper
- (c) pencils, eraser, ruler, highlighter, file cards

September 2013 MATH 021 Course Outline Page 1 of 3

#### 4. Course Instructions and Content

- (a) for each topic of the book listed below, study the explanations and examples, then work through and check your answers to as many exercise problems as you need to fully understand
- (b) ask for help when you have difficulties, or when you don't understand something
- (c) complete the Self-Tests for each topic and check your answers, then to prepare for the unit Final Test, complete the Review problems at the end of each unit
- (d) after clearing up any problems and correcting your errors, ask your instructor for authorization to write the unit Final Test
- (e) review your Final Test results with the instructor, and proceed to the next unit if you score 75% or better, or rewrite the Final Test if you score less than 75%
- (f) calculators may not be used on the Final Tests, unless approved by the instructor

The course completion time will vary for each student, depending on a number of factors, including your current level of math skills, motivation, learning rate, and how much time you have to study math, either at the college or at home. Students generally need to spend 5–15 hours of study time per week to complete each math course within a reasonable amount of time.

September 2013 MATH 021 Course Outline Page 2 of 3

## 5. Basis of Student Assessment (Weighting)

The MATH 021 course grade is based on the average of all unit Final Test passing scores.

Note: Students with a record of poor attendance OR poor progress may be restricted from re-registering in Academic and Career Foundations Department courses.

## 6. Grading System

A+	90–100%	B+	77–79%	C+	65–69%
Α	85-89%	В	73–76%	С	60-64%
<b>A</b> –	80-84%	B-	70–72%	ΙP	in progress

## 7. Learning Support and Services for Students

Academic Upgrading Help Centre (CBA 109 Interurban campus)

Math Help Centre (Ewing 342 Lansdowne Campus) Help with coursework, reference & learning materials library, computers & printer, quiet testing & study areas

There are many other Camosun services available to help you succeed in and out of the classroom, including education planning, learning and personal support, campus life, work and housing, and getting around. This information is available at Registration or the College web site <a href="http://camosun.ca/services/">http://camosun.ca/services/</a>

## 8. College Policies

#### **ACADEMIC PROGRESS**

The purpose of this policy is to enhance a learner's likelihood of success, and to encourage the learner to use College resources effectively.

http://camosun.ca/about/policies/education-academic/e-1-programming-&-instruction/e-1.1.pdf

#### **GRADING**

The purpose of this policy is to ensure that grading and promotion are consistent and fair. <a href="http://camosun.ca/about/policies/education-academic/e-1-programming-&-instruction/e-1.5.pdf">http://camosun.ca/about/policies/education-academic/e-1-programming-&-instruction/e-1.5.pdf</a>

# STUDENT CONDUCT

The purpose of this policy is to provide clear expectations of appropriate academic and non-academic student conduct, and to establish processes for resolution of conduct issues or the imposition of sanctions for inappropriate conduct.
