Exit Grade:

A grade of C+ (65%) or better in Math 072 is necessary to continue into Math 073 (Advanced Mathematics 2), Math 116 (Elementary Statistics) as well as certain programs such as Criminal Justice, Business Administration, Golf Management, and Hotel and Restaurant Management.

Required Materials:

- (a) Textbook: *Intermediate Algebra*, 10th, 11th, or 12th edition, Marvin Bittinger.
NOTE: Same textbook for 073.
- (b) Scientific calculator: The Sharp EL 531W model will be the only calculator allowed for this course and most math courses at Camosun.
- (c) NOTE: Calculators will not be allowed on Tests 1 or 3.**

Course Content and Schedule

Self-paced Instructions

The course is designed to be completed in one term. However, it can be completed sooner, depending on a number of factors including the students' beginning level of math skills, motivation, learning rate, and how much time they can actually study (average 15 20 hours per week to complete in 4 months).

If you do not understand something seek help right away. In addition to online, resources include your family and friends, your instructor, and /or the Math Tutor Center.

Contact your instructor to get permission to write the unit exam. These exams will be written face-to-face.

Your final grade is based the unit exams and the final exam.

Grade Calculation: *Five Unit Exams 50%

**Final Exam 50% or 100%

** If your term average is at least 50% and all your assignments are complete and if your final exam mark is higher than your term average, then your final course grade will be based 100% on your final exam mark.

Course Objectives:

The objectives of the course are:

1. To learn the basic algebra skills necessary to be successful both in your chosen field of study and in future math courses. This involves learning the vocabulary, notation, rules, and techniques of intermediate algebra, as well as solving applied problems.
2. To be able to solve problems involving simple calculations without the aid of a calculator.
3. To learn to write mathematics correctly and also to be able to write about the mathematics that you are learning.
4. To be able to talk about the mathematics you are learning.
