

**CAMOSUN COLLEGE**  
*School of Access*  
*Community Learning Partnerships*

**MATH 072**  
*Advanced Mathematics 1*  
**2016 Fall**

**COURSE OUTLINE**

---

The calendar description is available on the web at <http://www.camosun.ca/learn/calendar/current/>

*Please note: This outline will not be kept indefinitely. It is recommended students keep this outline for their records, especially to assist in transfer credit to post-secondary institutions.*

---

**1. Instructor Information**

(a) Instructor	Aubrey Bebar	
(b) Office hours	By student request	
(c) Location	CELÁSET program site	
(d) Phone	N/A	<b>Alternative:</b> Facebook messenger
(e) E-mail	bebara@camosun.ca	
(f) Website	N/A	

**2. Intended Learning Outcomes**

This course is the first half of Math 11 and provides the algebra skills required for statistics, criminal justice and some business programs. Topics include: linear equations and inequalities, rearranging formulas, linear equations in two variables, systems of linear equations, integer and rational exponents, polynomials and factoring.

The objectives of the course are:

- To learn the basic algebra skills necessary to be successful both in your chosen field of study and in future math courses. This involves learning the vocabulary, notation, rules, and techniques of intermediate algebra, as well as solving applied problems.
- To be able to solve problems involving simple calculations without the aid of a calculator.
- To learn to write mathematics correctly and also to be able to write about the mathematics that you are learning.
- To be able to talk about the mathematics you are learning.

**3. Required Materials**

- (a) Textbook: *Intermediate Algebra*, 10<sup>th</sup>, 11<sup>th</sup>, or 12<sup>th</sup> edition, Marvin Bittinger. NOTE: Same textbook for 073.
- (b) Scientific calculator: The Sharp EL 531W model will be the only calculator allowed for this course and most math courses at Camosun.
- (c) **NOTE: Calculators will not be allowed on Tests 1 or 3.**

## 4. Course Content and Schedule

The course is designed to be completed in one term. However, it can be completed sooner, depending on a number of factors including the students' beginning level of math skills, motivation, learning rate, and how much time they can actually study (average 15-20 hours per week to complete in 4 months).

If you do not understand something seek help right away. In addition to online, resources include your family and friends, your instructor, and the Math Help Centers.

Contact your instructor to get permission to write each test and exam. These exams will be written face-to-face.

Your final grade is based the unit tests and the final exam.

<b>Unit 1 – Review of Basic Algebra (NO CALCULATOR)</b>	
<b>R.1</b>	The set of real numbers
<b>R.2</b>	Operations with real numbers
<b>R.3</b>	Exponential notation and order of operations
<b>R.4</b>	Introduction to algebraic expressions
<b>R.5</b>	Equivalent algebraic expressions
<b>R.6</b>	Simplifying algebraic expressions
<b>R.7</b>	Properties of exponents and scientific notation
Summary & Review/Chapter Test	
Unit 1 final test	
<b>Unit 2 – Solving Linear Equations and Inequalities</b>	
<b>1.1</b>	Solving equations
<b>1.2</b>	Formulas and applications
<b>1.3a</b>	Applications and problem solving
<b>1.4</b>	Sets, inequalities, and interval notation
<b>1.5</b>	Intersections, unions, and compound inequalities
<b>1.6a-d</b>	Absolute-value equations
Summary & review/Chapter Test	
Unit 2 final test	
<b>Unit 3 – Graphs, Functions, and Applications (NO CALCULATOR)</b>	
<b>2.1</b>	Graphs of equations
<b>2.2</b>	Functions and graphs
<b>2.3</b>	Finding domain and range

<b>2.4</b>	Linear functions: graphs and slope
<b>2.5</b>	More on graphing linear equations
<b>2.6</b>	Finding equations of lines; applications
Summary & review/Chapter Test	
Unit 3 final test	
<b>Unit 4 – Systems of Equations</b>	
<b>3.1</b>	Systems of equations in two variables
<b>3.2</b>	Solving by substitution
<b>3.3</b>	Solving by elimination
<b>3.4a</b>	Solving applied problems: two equations
<b>3.7a, b</b>	Inequalities in two variables
Summary & review/Chapter Test	
Unit 4 final test	
<b>Unit 5 – Polynomials and Polynomial Functions</b>	
<b>4.1</b>	Introduction to polynomials and polynomial functions
<b>4.2</b>	Multiplication of polynomials
<b>4.3</b>	Introduction to factoring
<b>4.4</b>	Factoring trinomials: $x^2 + bx + c$
<b>4.5</b>	Factoring trinomials: $ax^2 + bx + c$ , $a \neq 1$
<b>4.6</b>	Special factoring
<b>4.7</b>	Factoring: a general strategy
Summary & review/Chapter Test	
Unit 5 final test	
MATH 072 review	
MATH 072 final exam	

## 5. Basis of Student Assessment (Weighting)

- Five Unit Exams 50% \*
- Final Exam 50% or 100% \*\*

\*As this is a mastery-based course, the goal for each test is 65% or better. If you receive between 60 & 70%, you have the option of rewriting once. If you scored less than 60% then you will need to rewrite the test before you continue. Note: Tests can only be rewritten once for a total of two times. The lowest test mark will be dropped when calculating the test average.

\*\* If your term average is at least 50%, all your tests are complete, and your final exam mark is higher than your term average, then your final course grade will be based 100% on your final exam mark.

## 6. Grading System

Standard Grading System (GPA)

Competency Based Grading System

## 7. Recommended Materials or Services to Assist Students to Succeed Throughout the Course

### LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College Calendar, Student Services or the College web site at <http://www.camosun.bc.ca>

### STUDENT CONDUCT POLICY

There is a Student Conduct Policy. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, Registration, and on the College web site in the Policy Section.  
<http://www.camosun.bc.ca/policies/policies.html>

A. GRADING SYSTEMS <http://www.camosun.bc.ca/policies/policies.php>

The following two grading systems are used at Camosun College:

1. Standard Grading System (GPA)

Percentage	Grade	Description	Grade Point Equivalency
90-100	A+		9
85-89	A		8
80-84	A-		7
77-79	B+		6
73-76	B		5
70-72	B-		4
65-69	C+		3
60-64	C		2
50-59	D		1
0-49	F	Minimum level has not been achieved.	0

2. Competency Based Grading System (Non GPA)

This grading system is based on satisfactory acquisition of defined skills or successful completion of the course learning outcomes

Grade	Description
COM	The student has met the goals, criteria, or competencies established for this course, practicum or field placement.
DST	The student has met and exceeded, above and beyond expectation, the goals, criteria, or competencies established for this course, practicum or field placement.
NC	The student has not met the goals, criteria or competencies established for this course, practicum or field placement.

B. Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy at <http://www.camosun.bc.ca/policies/E-1.5.pdf> for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete:</i> A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.
IP	<i>In progress:</i> A temporary grade assigned for courses that are designed to have an anticipated enrollment that extends beyond one term. No more than two IP grades will be assigned for the same course.
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.
