### Calendar Description

This course is the second half of Math 11 and is an excellent refresher for those who wish to upgrade before Math 12 or Precalculus. Topics include: rational and radical expressions and equations, quadratic equations and functions, right triangle trigonometry, trigonometric functions of any angle and the Sine and Cosine Laws.

**Prerequisite(s):** "C+" in MATH 072; or "C" in Principles of Math 11, or Pre-calculus 11, or Foundations of Math 12; or assessment.

<http://camosun.ca/learn/calendar/current/web/math.html>

**Exit Grade:** B+ (77%) or better is necessary to continue into MATH 115. C+ (65%) or better is necessary to continue into MATH 092, 105, 107 or 109. C (60%) or better is necessary to continue into MATH 112.

### Required Materials:

- (a) Textbook: *Intermediate Algebra*, 10<sup>th</sup>, 11<sup>th</sup>, or 12<sup>th</sup> edition, Marvin Bittinger.  
NOTE: Same textbook from MATH 072.
- (b) Scientific calculator: The Sharp EL 531W model will be the only calculator allowed for this course and most math courses at Camosun.

### Self-paced Instructions

The course is designed to be completed in one term. However, it can be completed sooner, depending on a number of factors including the students' beginning level of math skills, motivation, learning rate, and how much time they can actually study (average 15 20 hours per week to complete in 4 months).

If you do not understand something seek help right away. In addition to online, resources include your family and friends, your instructor, and /or the Math Tutor Center.

Contact your instructor to get permission to write the unit exam. These exams will be written face-to-face.

Your final grade is based the unit exams, and the final exam.

Community Learning Partnerships  
**MATH 073 S17**  
Advanced Mathematics 1  
**Course Outline**

**Grade Calculation:** \*Five Unit Exams 50%

\*\*Final Exam 50%

\*As this is a mastery-based course, the goal for each test is 65% or better. If you receive between 60 & 70%, you have the option of rewriting once. If you scored less than 60% then you will need to rewrite the test before you continue. Note: Tests can only be rewritten once for a total of two times. The lowest test mark will be dropped when calculating the test average.

\*\* If your term average is **at least 50%** and all your assignments are complete and if your final exam mark is higher than your term average, then your final course grade may be based 100% on your final exam mark.

**Access Math Lab and Testing Centres:**

Ewing 342 & 224 (LANS) and Tec142 (INT): These drop-in centres are available for you to work on math homework and to seek **free** help from the Instructional Assistant. See the hours posted on the math lab doors or go to Camosun College website.

Study Tips: It is recommended that approximately 3-6 hours per week be spent studying and completing homework for this course outside of class time. Find a study buddy to discuss math problems and **use the math labs**.

Tests can be written in Ewing 342 or at Interurban in CBA109. Contact your instructor for permission to write with your preferred location.

Check the college website (<http://camosun.ca/services/help-centres/math.html>) for details and hours.

**Important Dates:**

See the college website at <http://camosun.ca/events/important-dates.html> for important dates including the last day to withdraw to avoid an F on your transcript.

**Grading System**

Percentage	Grade	Grade Point Equivalency
90-100%	A+	9
85-89%	A	8
80-84%	A-	7
77-79%	B+	6
73-76%	B	5
70-72%	B-	4
65-69%	C+	3
60-64%	C	2
50-59%	D	1
<50%	F	0
In Progress	IP	N/A

 Advanced Mathematics 1  
**Course Outline**

**MATH 073 course content**

<b>Unit R - Review of Basic Algebra</b>	
<b>R.1</b>	The set of real numbers
<b>R.2</b>	Operations with real numbers
<b>R.3</b>	Exponential notation and order of operations
<b>R.4</b>	Introduction to algebraic expressions
<b>R.5</b>	Equivalent algebraic expressions
<b>R.6</b>	Simplifying algebraic expressions
<b>R.7</b>	Properties of exponents and scientific notation
Summary & Review/Chapter Test	
<b>Unit R Exam (optional)</b>	
<b>Unit 1 - Polynomials and Polynomial Functions</b>	
<b>4.1</b>	Introduction to polynomials and polynomial functions
<b>4.2</b>	Multiplication of polynomials
<b>4.3</b>	Introduction to factoring
<b>4.4</b>	Factoring trinomials: $x^2 + bx + c$
<b>4.5</b>	Factoring trinomials: $ax^2 + bx + c$ , $a \neq 1$
<b>4.6</b>	Special factoring
<b>4.7</b>	Factoring: a general strategy
<b>4.8</b>	Applications of polynomial equations and functions
Summary & Review/Chapter Test	
<b>Unit 1 Exam</b>	
<b>Unit 2 - Rational Expressions, Equations, &amp; Functions</b>	
<b>5.1</b>	Rational expressions and functions: multiplying, dividing, and simplifying
<b>5.2</b>	LCMs, LCDs, addition, and subtraction
<b>5.3</b>	Division of polynomials
<b>5.4</b>	Complex rational expressions
<b>5.5</b>	Solving rational equations
<b>5.6</b>	Applications and proportions (omit section b)
<b>5.7</b>	Formulas and applications
<b>5.8</b>	Variation and applications
Summary & Review/Chapter Test	

<b>Unit 2 final test</b>	
<b>Unit 3 - Radical Expressions, Equations, &amp; Functions</b>	
<b>6.1</b>	Radical expressions and functions
<b>6.2</b>	Rational numbers as exponents
<b>6.3</b>	Simplifying radical expressions
<b>6.4</b>	Addition, subtraction, and more multiplication
<b>6.5</b>	More on division of radical expressions
<b>6.6</b>	Solving radical equations
<b>6.7</b>	Applications involving powers and roots
<b>6.8</b>	The complex numbers
Summary & Review/Chapter Test	
<b>Unit 3 Exam</b>	
<b>Unit 4 - Quadratic Equations and Functions</b>	
<b>7.1</b>	The basics of solving quadratic equations
<b>7.2</b>	The quadratic formula
<b>7.3</b>	Applications involving quadratic equations
<b>7.4</b>	More on quadratic equations
<b>7.5</b>	Graphing $f(x) = a(x-h)^2 + k$
<b>7.6</b>	Graphing $f(x) = ax^2 + bx + c$
<b>7.7a</b>	Mathematical modeling with quadratic functions
Summary & Review/Chapter Test	
<b>Unit 4 Exam</b>	
<b>Unit 5 - Trigonometry</b>	
<b>5.1</b>	Trigonometric functions of acute angles
<b>5.2</b>	Applications of right triangles
<b>5.3</b>	Trigonometric functions of any angle
<b>7.1</b>	The law of sines
<b>7.2</b>	The law of cosines
<b>Unit 5 Exam</b>	
<b>MATH 073 review</b>	
<b>MATH 073 Final Exam</b>

**Course Outline**

**Recommended Materials or Services to Assist Students to Succeed Throughout the Course**

**LEARNING SUPPORT AND SERVICES FOR STUDENTS**

There are a variety of services available for students to assist them throughout their learning. This information is available in the College Calendar, Registrar's Office or the College web site at:

<http://www.camosun.ca>

**STUDENT CONDUCT POLICY**

There is a Student Conduct Policy. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, Registration, and on the College web site in the Policy Section, or the College web site at:

<http://camosun.ca/about/policies/education-academic/e-2-student-services-&-support/e-2.5.pdf>

**STUDENT GRADING POLICY**

A new student grading policy is in effect for students in the School of Access. This information is available in the College Calendar, Registrar's Office or the College web site at:

<http://camosun.ca/about/policies/education-academic/e-1-programming-&-instruction/e-1.5.pdf>

**ACADEMIC PROGRESS POLICY**

There is an Academic Progress Policy designed to enhance a learner's likelihood of success. Students should become familiar with the content of this policy. The policy is available in each School Administration Office, Registration, and on the College web site in the Policy Section or the College web site at:

<http://camosun.ca/about/policies/education-academic/e-1-programming-&-instruction/e-1.1.pdf>
