Course Description:

This course is designed for non-native speakers of English and provides the necessary language skills and cultural competence to prepare learners to work and/or undertake further study in Canada. Using real-world examples and sample documents, learners develop communication competencies through writing general workplace correspondence and reports, with a focus on the writing process and clear writing techniques. The vocabulary and grammar skills required to write effectively and accurately are reviewed through self-study exercises. In addition, because today's workplace is increasingly electronic, learners use computers extensively to communicate by e-mail, and conduct research. Successful completion of the course gives learners the prerequisite to enter English 151 and/or other college courses and is the equivalent to Grade 12 English.

Computer Experience required for this course:

This course assumes a minimum level of proficiency skills. The following is a list of skills that you should be comfortable with to be successful in this course.
