Calendar Description

This course is the second half of Math 11 and is an excellent refresher for those who wish to upgrade before Math 12 or Precalculus. Topics include: rational and radical expressions and equations, quadratic equations and functions, right triangle trigonometry, trigonometric functions of any angle and the Sine and Cosine Laws.

Prerequisite(s): "C+" in MATH 072; or "C" in Principles of Math 11, or Pre-calculus 11, or Foundations of Math 12; or assessment.

<http://camosun.ca/learn/calendar/current/web/math.html>

Exit Grade: B+ (77%) or better is necessary to continue into MATH 115. C+ (65%) or better is necessary to continue into MATH 092, 105, 107 or 109. C (60%) or better is necessary to continue into MATH 112.

Required Materials

- (a) Reliable access to the internet
- (b) Registration with MyMathLab:
<http://www.pearsonmylabandmastering.com/northamerica/mathxl/students/get-registered/index.html>
- (c) Course ID: **gupta82148**
- (d) scientific calculator (Sharp EL531 is the recommended calculator, and is good through MATH 115)

Course Content and Schedule

The course is designed to be completed in one term. However, it can be completed sooner, depending on a number of factors including the students' beginning level of math skills, motivation, learning rate, and how much time they can actually study (**average 15-20 hours per week to complete in 4 months**).

If you do not understand something seek help right away. In addition to online, resources include your family and friends, your instructor, and /or the Math Tutor Center.

Contact your instructor to get permission to write the Final exam. The Final Exam must be written with an invigilator.

Grade Calculation: *Five Unit Exams 50%

**Final Exam 50%

*As this is a mastery-based course, the goal for each test is 65% or better. If you receive between 60 & 70%, you have the option of rewriting once. If you scored less than 60% then you will need to rewrite the test before you continue. Note: Tests can only be rewritten once for a total of two times. The lowest test mark will be dropped when calculating the test average.

** If your term average is **at least 50%** and all your assignments are complete and if your final exam mark is higher than your term average, then your final course grade may be based 100% on your final exam mark.

Access Math Lab and Testing Centres:

Ewing 342 & 224 (LANS) and Tec142 (INT): These drop-in centres are available for you to work on math homework and to seek **free** help from the Instructional Assistant. See the hours posted on the math lab doors or go to Camosun College website.

Study Tips: It is recommended that approximately 3-6 hours per week be spent studying and

completing homework for this course outside of class time. Find a study buddy to discuss math problems and **use the math labs**.

Tests can be written in Ewing 342 or at Interurban in CBA109. Contact your instructor for permission to write with your preferred location.

Check the college website (<http://camosun.ca/services/help-centres/math.html>) for details and hours.

Important Dates:

See the college website at <http://camosun.ca/events/important-dates.html> for important dates including the last day to withdraw to avoid an F on your transcript.
