1. Intended Learning Outcomes

This course provides a foundation for the further study of mathematics. Topics include linear equations and inequalities; function notation; linear functions; systems of linear equations in two variables; polynomial, rational and radical expressions and equations; quadratic functions and equations; and triangle trigonometry including the Sine and Cosine Laws. [5 Credits] Source: Camosun College Calendar http://camosun.ca/learn/calendar/current/web/math.html

After completion of Math 072 **and** 073, students will meet the outcomes as identified in the Adult

Basic Education Articulation Handbook found at

http://www2.gov.bc.ca/assets/gov/education/post-secondary-education/adult-education/2016-17_abe_guide.pdf

2. Course Materials and Support
Required Materials:
a) M.L. Bittinger, *Intermediate Algebra*, 12th Edition, Addison-Wesley, Boston, 2015 with Student Solution Manual and MyMathLab access code. Available in text or **e-text** (cheapest at the bookstore).
b) Sharp EL-531W scientific calculator – this is the only calculator allowed on tests and the exam.
c) Math 137 Course Pack, Frost
Supplementary Materials:
a) A Trig supplement is available on my website. You do not need to purchase one.
b) Videotapes and CD's covering each section of the text in the library viewing room (free-3 day loan)

Study Tips: We recommend you spend 8-12 hours per week studying outside of class time.
    Math Labs: Ewing 342 & 224 (LANS)and Tec142 (INT): These drop-in centres are available for you to work on math homework and to **seek free help** from the tutor on staff.   See the hours posted on the math lab doors (most current) or go to to http://camosun.ca/services/help-centres/math-access.html

Learning Support and Services for Students
There are a variety of services available for students to assist them throughout their learning. This information is available in the College Calendar, Registrar's Office or the College web site at http://camosun.ca/

3. Prerequisites and Exit Grade
Prerequisite(s): "B" in Applications of Math 11; or "C" in Principles of Math 10, or Foundations of Math & Pre calculus 10, or Foundations of Math 11, or Applications of Math 12, or MATH 053; or "C-" in Principles of Math 11, or Pre-calculus 11; or assessment.

Exit Grade and Course Options:
    B for Math 115   C+ for Math 107   C for Math 112 or 109
     Note that Math 137 cannot be used by BBA students to satisfy the UT math requirement.

4. Basis of Student Assessment (Grading)

Assignments: Online assignments are taken through MyMathLab. The deadline dates are Mondays by 11:59pm, but it is best to complete them ahead of time to allow for any glitches such as frozen computers. There are no extensions. See the last page on how to register for MyMathLab. There is also an in-class trig assignment.

Tests: There are 4 in class tests. The dates and topics are on the pacing schedule. If you miss a test for any reason (including illness, getting called into work) a zero will be assigned, unless you contact me via e-mail <u>before </u>the test to make alternate arrangements. All tests count.

Final Exam: The final exam is worth 50% of your mark and is based on the entire course. <u>Do not make holiday plans until you know the time of the exam as this is not negotiable.</u>

Grade Calculation: The final grade will be calculated according to the following breakdown:

Online Assignments	10%
Tests and In-Class assignments	40%
Comprehensive Final Exam:	50%

Grade Scale:

0-49	50-59	60-64	65-69	70-72	73-76	77-79	80-84	85-89	90-100
F	**D**	**C**	**C+**	**B–**	**B**	**B+**	**A–**	**A**	**A+**
