- Use math vocabulary related to simplifying, adding, subtracting, multiplying, and dividing fractions and mixed numbers.
- Simplify, add, subtract, multiply, and divide fractions and mixed numbers.
- Convert between fractions and decimals, and compare the magnitude of fractions and decimals.
- Use addition, subtraction, multiplication, or division of fractions and mixed numbers to solve application problems.
- Work independently on the materials provided, and ask for help when needed.
- Use strategies to organize work and notes, and to manage time and math anxiety.

3. Required Materials

(a) textbook: *Adult Literacy Fundamental Mathematics Book Five*

Supplementary Materials

- (b) three-ring binder, lined paper, graph paper
(c) pencils, eraser, ruler, highlighter, file cards

4. Course Instructions and Content

- for each topic of the book listed below, study the explanations and examples, then work through and check your answers to as many exercise problems as you need to fully understand
- ask for help when you have difficulties, or when you don't understand something
- complete the Self-Tests for each topic and check your answers, then to prepare for the Unit Test complete the Review problems at the end of each unit
- after clearing up any problems and correcting your errors, ask your instructor for authorization to write the Unit Test
- review your test results with the instructor, and proceed to the next unit if you score 75% or better, or rewrite the test if you score less than 75%
- calculators may not be used on tests, unless approved by the instructor

The course completion time will vary for each student, depending on a number of factors, including your current level of math skills, motivation, learning rate, and how much time you have to study math, either at the college or at home. Students generally need to spend 5–15 hours of study time per week to complete each math course within a reasonable amount of time.
