- During class times, the instructor will be available to meet with students online in the "Collaborate" video chat area of the D2L site.
- Students will consult with the instructor at least once a week during class time via the "Collaborate" video link, at which time attendance will be recorded, progress will be logged, and plans for your work over the next few days will be discussed.
- In addition, please make appointments to consult more extensively with your instructor at times that are convenient for you, especially if there are any questions or concerns about how to successfully complete assignments.
- Students will follow an (individually-adaptable) timeline for assignment completion which will become the student's anticipated due dates for assignments and course completion.
- It is expected that students will:
  - Work on assignments before, during, and after class time (approx. 10 hours/week).
  - Consult regularly with the instructor (at least once a week during class time).

- Make and attend several appointments with the writing consultant (and these sessions are considered your lab time).

- Work independently on all assignments unless other arrangements are made.
- Make and attend additional appointments with the instructor (as needed).
- Ensure that all work submitted for the course is 100% the work of the student submitting the assignment and that no portions of work produced by others is included (unless appropriate MLA style documentation is provided within the assignment and detailed on an attached works cited page).

**Academic honesty:** All written work for this course must be entirely the student's own work, so please ensure that you use entirely your own ideas, phrases, and words when completing assignments. If an assignment requires research, a major component is the appropriate citation of all sources used. If an assignment doesn't require research, it's best not to refer to outside sources when writing it. Before completing any assignments, please review the "Academic Honesty Guidelines for Students in the School of Access and IECC" document which is provided on the D2L website and let me know if you have any questions. This course also includes a required mini-lesson about academic honesty in the collection of "welcome week" assignments to help ensure that you are aware of academic concerns about potential plagiarism and know how to prevent it when completing your assignments.
