Notes

I shall assign questions for each chapter, but they will not be marked. I do recommend that you try to do the questions as I use the assigned questions to help me design the tests. Chem 120 is not an easy course, and some of the concepts are downright weird. If you find you are having any problems with the course, please come and get help. I shall post ~~A~~office hours@ on my door, but if you see me around, feel free to ask for help. You will not be bugging me.
