

## **CHEMISTRY 110 Winter 2004**

### **BOOKS**

ΔFundamentals of Chemistry@ by Ralph Burns  
ΔChemistry 110 - Lab Manual@

### **COURSE CONTENTS**

	<u>Chapter</u>
Reaction Rates and Chemical Equilibrium	15
Gases, Liquids and Solids	12, 13
Solutions	14
Acids and Bases	16
Oxidation and Reduction	17

### **TESTS**

2 quizzes (90 min)	40%
1 final (2 hr)	50%
Labs	<u>10%</u>
Total	100%

If you get a better mark for the final than you get for any or both of the quizzes, I shall substitute mark for the final.

### **Grades**

A+	95-100	B+	80-84	C+	65-69
A	90-94	B	75-79	C	60-64
A-	85-89	B-	70-74	D	50-59
				F	00-49

I shall assign questions for each chapter. Whether you try them or not is up to you. I do recommend that you try them, and get help when you get stuck, as the tests will be based on assigned questions. Chemistry 110 is *not* an easy course - doubly true if you are doing it in the Spring semester. You must keep up with the material. Things move fast in the Spring, and there is simply not enough time to put something off for even a couple of days. At times you will need help. My job is help you. When you come for help, you are **not** bugging me. Feel free to ask for help whenever you need to.
