Dawn,

It really is just a "one-off" for one student ..... if you agree, I recommend we just delete it off your "to do" list :-)

Thanks and take care,  
David

Hi, David.

Thanks for the information in your email message.

I understand the course outlines are kept on file for the purpose of providing same to students should they request that document at some time in the future...usually several years from now!

So...if you feel it is likely your student will never ask for a copy in the future, it would make sense to strike this task off the "to-do" list and we'll leave it be as it is.

Please let me know if that is your preference.

Thanks again.  
Dawn

Dawn,

Sorry about that ..... it was just a section for one student. Do you still want a course outline? I can modify my old Psyc 250 course outline and submit it to you early next week. It really was just a special offering for one student.

Please let me know your wishes ..... and I will be happy to comply,  
David

Hi, David.

There is no course outline on file for your Winter 2004 section of Psyc 250.

Would you please forward an electronic copy by return email at your earliest convenience for electronic filing in the School's records.

Thanks very much.  
Dawn
