I shall assign questions for each chapter. Whether you try them or not is up to you. I do recommend that you try them, and get help when you get stuck. The tests will be based on assigned questions. Chemistry 110 is *not* an easy course. You must keep up with the material. At times you will need help. My job is help you. When you come for help, you are **not** bugging me. Feel free to ask for help whenever you need to.
