### **2. Intended Learning Outcomes**

Upon successful completion of this course, students are able to

- Outline the approaches and perspectives in Human Geography.
- Describe and explain the location, diffusion and distribution of cultural, economic, and political characteristics in Canada and other parts of the world.
- Identify the distribution patterns of population and the processes of migration and urbanization at the local, regional, and international levels.
- Assess the processes and impacts of human activities and their interaction with the environment.

### **3. Required Materials**

**Required Textbooks**

Knox, Paul, Sallie Marston, Alan Nash, 2004. Human Geography: Places and Regions in Global Context. Canadian edition. Toronto: Pearson.

**Recommended Text**

Stanford, Quentin H., ed. 2003. Canadian Oxford World Atlas. 5<sup>th</sup> ed. Toronto: Oxford University Press.

Margot, Northey, and David B. Knight. 2000. Making Sense in Geography and Environmental Studies. 2<sup>nd</sup> ed. Toronto: Oxford University Press.

## 4. Course Content and Schedule

### Course Requirements and Prerequisites

- Credit Value: 3
- In-class Workload: 4 hours lecture, lab, and seminar per week
- Out-of-class Workload: 4-5 hours per week
- Prerequisites: C+ in English 12 or assessment
- Transferability: Uvic, UBC, SFU, UNBC and others

### Course Topic Units

The course is organized into six units:

#### Unit I. Introduction to Basic Concepts

This unit introduces the field of geography, its basic concepts and approaches, and major geographical methodologies and philosophical thoughts.

#### Unit II. Globalization and Political System

The concepts and issues of globalization will be reviewed in this unit. This unit further highlights the spatial organizations and functions of political systems with particular emphasis on the evolution of the state, boundary conflicts, and geopolitical strategies and issues.

#### Unit III. Culture and Religion

This unit outlines the concepts of culture and the evolution from hunting and gathering society to agricultural, industrial, and post-industrial societies. The geographical origins, distribution and spatial distribution and impacts of major religions are also discussed.

#### Unit IV. Population and Migration

This unit examines the key indicators and issues of demographic structure, population policies and distribution in both developed and developing countries. The patterns, factors and explanations of migration at local, regional, and international scales will also be highlighted.

#### Unit V. Urbanization and Cities

This unit highlights the spatial organizations and functions of urban systems with particular emphasis on the location of world cities, urbanization, and models of urban system and internal structures.

#### Unit VI. Economic Activities and Development

This unit focuses on the spatial patterns of production, distribution, and consumption of primary, secondary and tertiary activities. The lectures review the factors and locational models of agricultural and manufacturing activities, and the indicators and explanations of economic development.

#### Unit VI. Human-Environment Relationship

This unit concerns with human impacts on the environment especially relating to global climatic changes and issues of environmental degradation.

### Instructional Framework

- Lectures: provide an outline for understanding and interpreting materials essential to course objectives, learning outcomes and course assignments. Lectures are intended to highlight major concepts, clarify text and supplementary materials, and raise awareness of issues.
- Discussion: is an integral part of the course and every one is encouraged to raise questions, elaborate upon, or seek clarification of, course content during lectures, labs and seminars.
- Audio-visual Materials: a variety of audio-visual materials (films, videos, slides, overheads, etc.) will be used in conjunction with lectures and seminars to illustrate the major concepts and issues.

- Readings: include both required and supplementary materials. The required readings provide essential materials in achieving course objectives. The readings should be read both before and after the lectures. Supplementary readings offer additional opportunities to study in-depth on certain topics.
- Tests: are conducted to provide learning opportunities for students to review both lecture and reading materials assigned in the course. They also serve as means of evaluating the extent to which individual students are meeting course objectives and learning outcomes.
- Labs and Exercises: labs and exercises assigned in the course will help to focus and consolidate materials covered in lectures and readings. They also serve to evaluate the degree to which individual students are meeting course objectives and learning outcomes.
- Presentation: the presentation will aim to facilitate the presenter to organize materials in a logical sequence, to practice public speaking techniques, and to improve their understanding of the issues from constructive feedback.
- Attendance: regular attendance and participation in lectures and seminars are expected of all students. Attendance will be recorded from the third week of class on. Students should inform the instructor if absence for more than a week is expected.

## 5. Basis of Student Assessment (Weighting)

### Assignments

**Important Note:** Students are expected to complete their own labs, projects and other assignments. Copying answers or using works from others are not permitted. See note on plagiarism. Students found violating the Academic Conduct Policy will be assigned an F for the assignment or the course.

Labs (35%): a total of 7 labs will be assigned during the semester. Each lab will carry equal marks. All labs are to be submitted on the day assigned during class time (see schedule of activities). **Late labs are not accepted.**

Project (15%): The theme of this year focuses on the development issues facing Sub-Saharan Africa. Students are encouraged to form a small group of 2-4 to develop either a research project or a service learning activity. All research projects or service learning activities have to be presented and submitted in the form of posters, slides, videos, power-point, or other audio-visual formats on the day of presentation. The audio-visual materials will be evaluated by its content, organization of materials, appropriate use of photos, graphs, maps, etc, and proper citation of sources and consistent design.

Presentation (10%): Each individual or group of 2-4 students is required to present a 10-15 minute oral summary of their project during the last two weeks of classes. The order of presentation will be assigned by the instructor according to the topics. No rescheduling of presentations will be permitted. The evaluation of the presentation is based on speaking style, content, organization and time management.

### Tests

Test 1 (20%): The first test will be based on the reading, lecture and lab materials covered in the first half of the course. See schedule of activities for the test date.

Test 2 (20%): The second test will be based on the reading, lecture, and lab materials covered after the first test. See schedule of activities for the test date.

*Important Note: A doctor's certificate or equivalent is required to take a supplementary examination. Other supplementary examinations approved by the instructor may be subjected to a penalty of 5% per day.*

### Evaluation Guide

#### **Test**

- The format and length of the test will be reviewed in class;
- The coverage of the test will be based on lecture, reading (both textbook and library reserved), and lab materials;
- The evaluation of the test is based on an appropriate description of patterns and/or issues, adequate explanations of factors, and illustrate with relevant examples

#### **Poster or other Audio-visual Materials**

- The evaluation of this assignment is based on a relevant title, concise textual materials (statement of problem, research methods, evidence, conclusion, etc.), appropriate use of visual materials (maps, graphs, tables, photos, etc.), and a short list of bibliography

**Oral Presentation**

- The oral presentation will be evaluated according to speaking (clarity, pace, loudness, engage audience, etc.), content (adequate description and analysis), organization (logical structure and integration of materials), and time management.

**Plagiarism:** is considered an inappropriate academic conduct.

- According to the Academic Conduct Policy, you are not allowed to appropriate “the work of another or parts of passage of another’s writing, or the ideas of language of the same, and passing them off as a product of one’s own mind or manual skill.”
- It is also not acceptable to submit the same project (even if it is created or written by yourself) to satisfy the requirements for more than one course. You must inform and obtain prior approval from the instructor if you consider submitting or re-submitting parts of the same paper or project to more than one class.

<u>Evaluation</u>	
7 Labs (5% each)	35%
2 Tests (20% each)	40%
Presentation	10%
Project	15%
<b>Total</b>	<b>100.0%</b>

**Performance Review and Resolution/Appeal Process**

The instructor will provide a regular report on your performance. Feel free to discuss any concerns that you have with regard to your grade or performance. The instructor may be able to offer you advice or alternatives. According to the Student Appeals Policy, you may bring your concerns to the attention of the Chair of the Social Sciences Department as the second step after you have discussed the issue with the instructor.

**6. Grading System**

*(If any changes are made to this part, then the Approved Course description must also be changed and sent through the approval process.)*

*(Insert appropriate approved grading system – see last page of this template.)*

The following percentage conversion to letter grade will be used:

A+ = 95 - 100%	B = 75 - 79%	D = 50 - 59%
A = 90 - 94%	B- = 70 - 74%	F = 0.0 - 49%
A- = 85 - 89%	C+ = 65 - 69%	
B+ = 80 - 84%	C = 60 - 64%	

**7. Recommended Materials or Services to Assist Students to Succeed Throughout the Course**

## LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College Calendar, Registrar's Office or the College web site at <http://www.camosun.bc.ca>

## ACADEMIC CONDUCT POLICY

There is an Academic Conduct Policy. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, Registration, and on the College web site in the Policy Section.
