RE: COURSE OUTLINE FOR ENVR 226-PLA, WINTER 2005 SEMESTER

See instructor's/Program Chairs' note below:

For the Envr 226 - the student registered to take the PLA and did not show up again. We did not proceed to the formal outline for him - would have been the 'second step' to establish the details. So, just put - no outline necessary. I guess they will register in the regular Spring course as a PLA to do the portions of the course that are 'not covered' by previous education (likely try to swing a PLA registration continuance!).
