4. Course Content and Schedule

This course examines different ways that photography and photographs have been used by Western society in the 19th and 20th centuries (emphasis on England, France, and North

America). We will investigate the production of images, their circulation, consumption, applications, and interpretations, as well as their impact within the areas of portraiture, photojournalism, science, “pseudo” science, and advertising. We also consider issues and theories of spectatorship, identity, representation, gender, race, and class.

The course is divided into themes with lectures exploring these themes using different case studies and examples. For each class, there are specific articles that provide background while the lectures provide the details. Although lectures are based on specific topics, they do build upon previous lecture material and further develop recurring themes. There may be a few extra readings to photocopy, print out, or read on-line.

Please note: this course is *not* a chronological examination of the technical developments, genres, or art movements in the history of photography although they are addressed.

Warning: I will be showing slides of photographs during the lectures that some students may find troubling or controversial. If you feel this is going to adversely affect you or your ability to attend the lectures and/or complete assignments, you should re-consider taking this class. The types of potentially disturbing images: photos from war such as photos of dead/dying people and risqué photos from advertisements, art, etc.

Course work—mid-term and final exam

Exams consist of definitions, short answers, and essay questions in relation to specific slides. The exams bring together key lecture themes and ideas as drawn from lecture and

readings. There will be some choice of questions to answer for the essay. Your study guides will be taken in for grading while you write your exams.

Course work—assignments

Each assignment will have an “assignment sheet” available (WEBCT) which will provide the assignment objectives, instructions, expectations, and grading criteria.

- **ASSIGNMENT #1** is a **historiography** exercise to familiarize students with the various ways that histories of photography have been written. See assignment sheet for details.
- **ASSIGNMENT #2: academic research essay** involves conducting research and creating an essay that analysis a specific idea; there are two options for this assignment (see below). The assignment is 8-10 pages long (2000-2500 words) of double spaced, word-processed text, with footnotes, bibliography, and photocopies/digital print outs of key images discussed.

Option #A: analyzing a family photographic album (primary research!). **Note:** you will need to have access to someone’s family photographic album (not your own album)! Start looking now! An information sheet will be given in class to explain assignment, and one lecture will be given which will provide background.

Option #B: You may propose a different research topic based on one of the themes covered by the course or on another area; I can make suggestions. Before you begin, I must approve your research proposal **BY OCT. 16**. Make an appointment to see me and bring with you a thesis statement, a bibliography of key books and articles, and photocopies/digital print-outs of images.

Course work—the Study Guide/“Notebook”

To assist you with managing the rather large quantity of information this course covers, you will be required to make a “study guide” which will consist of your definitions to the vocabulary words and the occasional (small) assignment given in class. This is **YOUR PERSONAL, CUSTOMIZED STUDY GUIDE**; it is a place to manage, simplify, and synthesize lecture notes & information from the readings. It is separate from your class notes and may take whatever form you prefer: coil book, loose leafs in a folder, etc. The study guide will be taken in for grading before you write your midterm & final exam. Photocopied pages of handwritten notebooks will not be accepted. Same/very similar word processed notes handed in by 2 or more people will receive “0”.

Late assignments

Late assignments, that is, those submitted after the due date & time, will be penalized **5% per day** (note: if your assignment grade is 75% and you handed it in 1 day late your grade would be 70% for that assignment). I will not accept assignments **7 days** after deadline *unless* special permission is arranged *beforehand* and/or medical certification is provided. You may request an extension but not on day assignment is due or past that point. To request an extension, you need to submit a written request (email is fine) including the day you will hand it in.

Unhappy with an assignment grade? This is the procedure to follow:

- 1) you *can’t* talk to me the day you get the assignment back
- 2) take the assignment home and evaluate it by:
 - a) re-reading the hand-out about the assignment (especially the grading criteria)
 - b) re-reading your answer & considering my comments & the grading criteria
- 3) formulate your “case” (make notes!) & then discuss your grade with me

Academic consequences if source material is *not* cited:

Not citing your sources is a form of plagiarism and, therefore, cannot receive a passing grade. If you are not sure about when and how to cite your sources, consult a style manual, or see the Camosun website.
