CAMOSUN COLLEGE School of Arts & Science Environmental Technology

ENVR 140 – Introduction to ArcGIS Winter 2007

COURSE OUTLINE

1. Instructor Information

(a) Instructor: Steve Hann

(b) Office hours: Wednesday 1:00PM to 2:00PM or by appointment (F246)

(c) Location: Young 307

(d) Phone: 686-4569 (cell) Alternative: 721-4569 (home)

(e) E-mail: coastline@shaw.ca

2. Intended Learning Outcomes

This course is an introduction to computer-based analytical tools and concepts in environmental analysis. A specific environmental analysis project provides the experience of working with a spatial data set. Students design and carry out the analysis by organizing and analyzing the data using current software tools (Arc View ArcGIS9x).

It will help to prepare students for using GIS in a working environment.

The student will be able to:

- > Understand nomenclature and terms commonly used in GIS and ArcGIS specifically
- Become familiar with spatial data formats
- > Become familiar with GIS data and tools
- > Effectively store and retrieve spatial data

3. Required Materials

Text:

Getting to Know ArcGIS desktop - second edition Updated for Arc GIS 9, Tim Ormsby et al.

4. Course Content and Schedule

Class/Lab Times:

Section A Y-307 Wednesday and Friday 9:00AM – 10:50AM Section B Y-307 Wednesday and Friday 11:00PM – 12:50PM

Attendance to every class is mandatory. You must notify me with a valid excuse if you cannot attend a class otherwise you will be penalized, as attendance is part of your final grade. If you miss a class, it is your responsibility to make up what you missed on your own time before the next session, not during the next scheduled class. Priority will be given to helping students who attended the last class and are working on current tasks.

Tutorial Times: TBA

Note: The tutorial is meant to be for you to work and practice skills or ask for help with specific questions. Use this time to make up for missed classes.

If students do wish to see instructor during the sessions in the lab, please plan to attend promptly in order to ensure that instructor is present and that there is sufficient time to address your question or problem. If you would like to make an appointment to ensure contact with the instructor, or arrange for help at a different time, please do so via phone or email.

Quizzes

Students must notify instructor of a forthcoming absence prior to the lab period by either email or by phone. Failure to notify the instructor in advance of your absence will result in a "0" for a quiz. If you are late for a quiz, you will not be given extra time.

Do's

- I Attend tutorial sessions if you need practice or extra help
- If You will be assigned space on the data server for storage of your files. Lost data is not the responsibility of the computer lab or instructor.

Don'ts

- I No food or drink of any kind in the lab
- II. No computer games
- III No working on other classes or personal computer use during class unless all assigned work is completed. Browsing the Internet or writing emails or working on assignments during lectures will not be tolerated.

Jpon completion of this course the successful student should be able to:						
	Manage spatial data.					
	Use ArcGIS tools to explore, query and map spatial data					
	Understand nomenclature and terms commonly used in GIS					
	Use ArcView ArcGIS to assess, query, and map spatial data					
	Use ArcGIS Help to assist you in the tasks listed above.					

5. Basis of Student Assessment (Weighting)

ltem	Value	Comments	
Assignments and Tests	40%	These will include small take-home and in-class assignments. May also include quizzes. If you do not attend, you will be given "zero". If you are late, you will not be given extra time.	
Term Project	25%	Larger report(s) and projects	
Final Exam	30%	Both written and practical	
Instructor's Assessment	5%	Based on attendance and class participation	
Total	100%		

tor's As	ssessment	5%	Based on attendance and class participation					
		100%						
Assigni	ments							
	Assignments are always due at the beginning of class unless otherwise specified.							
	Assignments submitted to instructor after due date will have marks deducted at a rate of							
	10% per day. If assigiven.	signments have	been graded and returned to the class, no grade will be					
	All assignments an	d projects must	t be typed. No hand-written papers will be					
	accepted.							
		☐ Assignments subm10% per day. If assignments☐ All assignments an	Assignments Assignments are always due at the Assignments submitted to instruct 10% per day. If assignments have given. All assignments and projects must					

- □ Students must notify instructor of a forthcoming absence PRIOR to the lab period. This can be done by email or by phone. Failure to notify the instructor in advance of your absence, you will result in a "0" for your quiz.

 □ If you are late for a quiz, you will not be given extra time.

 (c) Exams

 □ A mark of 50% must be attained on class work in order to pass the course. Otherwise an F will be awarded.

 (d) Other (e.g. Project, Attendance, Group Work)

 □ Full attendance at the lab sessions is mandatory
 □ Each absence will result in loss of "instructor's assessment" marks
 □ Late arrivals greater than 20 minutes will be considered an absence.
 □ If you are absent the day an assignment is due, it is your responsibility to make arrangements with the instructor PRIOR to the class, or late penalties will apply.
 □ If you are absent the day a project is assigned, it is your responsibility to contact the
- 6. Grading System
 - X Standard Grading System (GPA)

A+ =	95-100%	B+ =	80-84%	C =	60-64%
A =	90-94%	B =	75-79%	D =	50-59%
A- =	85-89%	B- =	70-74%	F =	0-49%
		C+ =	65-69%		

instructor and get the assignment and information, etc.

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy E-1.5 at **camosun.ca** for information on conversion to final grades, and for additional information on student record and transcript notations.

7. Recommended Materials or Services to Assist Students to Succeed Throughout the Course

LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College Calendar, at Student Services or the College web site at camosun.ca

STUDENT CONDUCT POLICY

There is a Student Conduct Policy **which includes plagiarism**. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, at Student Services, and on the College web site in the Policy Section.
