

## TEXTBOOKS

Martini, F. (2006). *Fundamentals of Anatomy and Physiology*. (7<sup>th</sup> Ed.) Pearson Benjamin Cummings, San Francisco.

Camosun College, Department of Biology. *Biology 152 Laboratory Manual*, Camosun College, 2007.

## Laboratory requirements

1. Students are advised to wear a laboratory coat during all lab sessions. However, coats are mandatory only in those labs involving dissections and microbiology. Cloth coats are preferable but disposable ones are acceptable.
2. Binder for laboratory manual, notes and assignments.

## Knowledge of pre-requisite material

It is important that you are familiar with material that has already been covered in the pre-requisite courses, Biology 12 or Biology 080 and Chemistry 11. This information is necessary in order to understand concepts taught in Biology 152. Students are expected to review this prerequisite material on their own, especially those topics listed as “**review**” in the course objectives and chapters 2 and 3 in your textbook. This information, as it relates to topics covered in the course, is also examinable.

You will obtain information from several sources including lectures, class discussions, textbooks, videos, laboratory exercises and clinical courses. Do not rely exclusively on any one, or only some of the sources. A strongly recommended approach to successfully completing this course is to review topics in your textbook before class and then consolidate information obtained in lectures with that in the textbook, after class.

## EVALUATION

Midterm lecture exam ( <b>Oct 15, 4 to 5:30 PM</b> ) .....	25%
Assignments, quizzes. Etc. ....	15%
Midterm lab exam.....	12.5%
Final lab exam .....	12.5%
Final comprehensive theory exam .....	35%

- the lecture exams will cover topics that have been discussed during lectures. Many of these topics may also be reinforced in the laboratory.
- laboratory exams include a practical component; for example, the identification of structures from anatomical models, dissections and slides; the following web site may be useful in reviewing lab material as it provides labeled images of tissues and models examined in the lab:  
website            <http://hunterp.disted.camosun.bc.ca>  
user ID: *anatomy*    password: *body123*
- the final lecture exam is comprehensive, covering the entire semester.

## IMPORTANT TO NOTE!

- exams must be written at the scheduled times. If a student is unable to attend an exam because of a genuine medical or other emergency, the instructor must be notified in advance of the examination. Upon submission of acceptable supporting documentation, the following accommodations will be available:
- if the Midterm Lab Exam is missed, the Final Lab Exam will be comprehensive and will count for 25% of the final grade
- if the Midterm Lecture Exam is missed, a make-up Lecture Exam will be scheduled during week 11. **This exam will cover all topics up to and including week 10.**

***Vacation plans and scheduled flights do not constitute an emergency.***

The following percentage conversions to letter grades will be used for this course:

A+	= 90 - 100%	B	= 73 - 76%	D	= 50 - 59%
A	= 85 - 89%	B-	= 70 - 72%	F	= 0 - 49%
A-	= 80 - 84%	C+	= 65 - 69%		
B+	= 77 - 79%	C	= 60 - 64%		

### Concerning spelling

Mastering the usage of anatomical and physiological terminology will be important to you for several reasons. Correct usage (pronunciation and spelling) will

- foster self confidence
- help to earn the respect of your professional colleagues
- reduce the chances of practical mistakes which may cause harm or embarrassment.  
Consider the difference between the terms **peroneal** and **perineal**

You will be expected to use acceptable pronunciation and correct spelling for presentations, assignments and exams. **Penalties for spelling errors will be applied.** If writing is illegible, no marks will be given.

## STUDENT RESPONSIBILITIES

1. Students are expected to hand in any required reports on time.
2. Late assignments will receive a penalty of 10% per day.
3. Attendance is important to ensure success. If unable to attend a session, the student is responsible for arranging with a classmate to obtain information such as notes, handouts and announcements.
4. Examinations must be written as scheduled. Exceptions may be made for emergencies at the discretion of the instructor and only if documentation of the illness or emergency acceptable to the department is received. The student must notify the instructor **in advance** of the examination.
5. If a student is unable to take the final laboratory examination and provides acceptable documentation, an oral laboratory examination may be given.
6. Any evaluation of work for in-class/lab assignments, reports and/or participation will not be given if a student is not present for any reason.
7. Students are expected to work independently on reports unless instructed that the evaluation is based on group effort and evaluation.
8. Students must know and follow all Safety Rules and Procedures.
9. Students must sign the Safety Contract before participating in any laboratory activity.
10. Failure to follow the Safety Rules and Procedures will result in penalties at the discretion of the instructor.
11. Students must turn off cell phones and pagers during lectures and laboratory sessions.
12. All laboratories start punctually. Information necessary for performing the laboratory correctly and safely is given at the beginning of the lab.

## ACADEMIC MISCONDUCT

Academic misconduct includes but is not limited to the following acts:

1. Giving or receiving unauthorized information to or from another student during any examination or test.
2. Obtaining or providing, without authorization, questions or answers relating to any examination or test prior to the time of the examination or test.
3. Using unauthorized sources of information during any examination or test.
4. Asking or arranging for another person to take any examination or test in one's place.
5. Plagiarizing, that is, appropriating the work of another or parts or passages of another's writing, or the ideas or language of the same, and passing them off as the product of one's own mind or manual skill.

According to Camosun College policy, the consequence for academic misconduct is an 'F' grade for the work involved or for the course as a whole.

## ACADEMIC CONDUCT POLICY

There is an Academic Conduct Policy. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, Registration, and on the College web site in the Policy Section.

**Biology Department**  
**Biology 152 Anatomy and Physiology for Nursing**  
**Fall 2007**  
**COURSE SCHEDULE**

Week	Dates	Lecture Topics	Lab Activities
1	Sept 3 Sept 4-7	<b>LABOUR DAY (College closed)</b> Homeostasis, Cells and Membrane Transport	<b>NO LABS</b>
2	Sept 10-14	Tissues Integumentary System	<b>LAB 1:</b> Lab Safety, Anatomical Terminology and Systems Overview
3	Sept 17-21	Skeletal System	<b>LAB 2:</b> Introduction to Microscopy and Tissues
4	Sept 24-28	Skeletal System (cont'd) Muscular System	<b>LAB 3:</b> Tissues (cont'd) and Integumentary System
5	Oct 1-5	Muscular System (cont'd)	<b>LAB 4:</b> Intro to Skeletal System and Axial Skeleton
6	Oct 8 Oct 9-12	<b>THANKSGIVING DAY (College closed)</b> Intro to Nervous System Neural Tissue & Action Potentials	<b>LAB 5:</b> Appendicular Skeleton and Articulations <b>NOTE:</b> students in the Monday lab must attend another lab section this week
7	Oct 15 Oct 15-19	<b>MIDTERM EXAM (4:00-5:30 PM)</b> Central Nervous System	<b>LAB 6:</b> Muscular System
8	Oct 22-26	Central Nervous System	<b>LAB EXAM #1</b>
9	Oct 29-Nov 2	Peripheral Nervous System	<b>LAB 7:</b> Central Nervous System
10	Nov 5-9	Sensory Perception	<b>LAB 8:</b> Peripheral Nervous System
11	Nov 12 Nov 13-17	<b>REMEMBRANCE DAY (College closed)</b> Endocrine System	<b>LAB 9:</b> Anatomy of Eye and Ear Sensory Perception <b>NOTE:</b> students in the Monday lab must attend another lab section this week
12	Nov 19-23	Endocrine System	<b>LAB 10:</b> Endocrine System
13	Nov 26-30	Cardiovascular System	<b>LAB 11:</b> Cardiovascular Anatomy
14	Dec 3-7	Cardiovascular System	<b>LAB EXAM #2</b>
	Dec 10-18	<b>FINAL EXAM (scheduled by registrar)</b>
