

**School of Arts & Science  
MATHEMATICS DEPARTMENT**

**MATH 187- X02  
Technical Mathematics 2  
2008Q2**

## **COURSE OUTLINE**

The Approved Course Description is available on the web @  
<http://camosun.ca/learn/calendar/current/web/math.html#MATH187>

Ω Please note: this outline will be electronically stored for five (5) years only.  
It is strongly recommended students keep this outline for your records.

### **1. Instructor Information**

(a)	Instructor:	Patricia Wrean (Pat)		
(b)	Office Hours:	Posted on office door and website		
(c)	Location:	CBA 153		
(d)	Phone:	(250) 370-4542	Alternative Phone:	
(e)	Email:	wrean@camosun.bc.ca		
(f)	Website:	<a href="http://wrean.disted.camosun.bc.ca/math187/">http://wrean.disted.camosun.bc.ca/math187/</a>		

### **2. Intended Learning Outcomes**

Upon completion of this course the student will be able to:

1. Use differential calculus to determine slopes, tangents, and normals to curves; use Cartesian and polar coordinates; apply numerical differentiation.
2. Use integral calculus to determine the area under a curve; find antiderivatives, indefinite integrals, and definite integrals; integrate natural logarithms, and apply basic techniques of integration.
3. Use calculus to find: acceleration, speed, distance, area between curves, area of a surface revolution, volumes, moments of area and mass, centroids and centers of mass, and force on submerged surfaces.

### **3. Required Materials**

- (a) Texts: Allyn J. Washington, Basic Technical Mathematics with Calculus, SI version, 8th edition, Pearson Education Canada, 2005.
- (b) Calculator: The calculators required by each program (Mechanical – Ti-89 Titanium, Civil – HP50G) will be used. However, no calculators will be allowed for the methods of integration quiz.

### **4. Course Content and Schedule**

## 1. INTEGRATION

- Antiderivatives (section 25.1)
- The Indefinite Integral (section 25.2)
- The Area Under a Curve (section 25.3)
- The Definite Integral (section 25.4)
- Numerical Integration: The Trapezoidal Rule (section 25.5)
- Simpson's Rule (section 25.6)

## 2. APPLICATIONS OF INTEGRATION

- Applications of the Indefinite Integral (section 26.1)
- Areas by Integration (section 26.2)
- Volumes by Integration (section 26.3)
- Centroids (section 26.4)
- Moments of Inertia (section 26.5)
- Other Applications (section 26.6)

## 3. METHODS OF INTEGRATION

- The General Power Formula (section 28.1)
- The Basic Logarithmic Form (section 28.2)
- The Exponential Form (section 28.3)
- Basic Trigonometric Forms (section 28.4)
- Other Trigonometric Forms (section 28.5)
- Inverse Trigonometric Forms (section 28.6)
- Integration by Parts (section 28.7)
- Integration by Trigonometric Substitution (section 28.8)
- Integration by Partial Fractions: Nonrepeated Linear Factors (section 28.9)
- Integration by Partial Fractions: Other Cases (section 28.10)

## 4. EXPANSION OF FUNCTIONS IN SERIES

- Maclaurin Series (section 29.2)
- Certain Operations with Series (section 29.3)
- Computation by Use of Series Expansion (section 29.4)
- Taylor Series (section 29.5)

## 5. SUPPLEMENTARY TOPICS

- Polar Coordinates (section 21.9)
- Curves in Polar Coordinates (section 21.10)
- Functions of Two Variables (section S-4)
- Curves and Surfaces in Three Dimensions (section S-5)
- Partial Derivatives (section S-6)
- Double Integrals (section S-7)

## 5. Basis of Student Assessment (Weighting)

The final grade will be calculated according to the following breakdown:

Quizzes:	40%
Assignments:	10%
Final Exam:	50%

If your final exam grade is higher than your term grade, then your final exam grade will count as 100% of your final grade.

**Final Exam:** The final exam will cover the entire course and will be 3 hours long. As stated in the current college calendar on page 39, “students are expected to write tests and final examinations at the scheduled time and place.” Exceptions will only be considered due to **emergency** circumstances as outlined in the calendar. Holidays or scheduled flights are not considered to be emergencies.

**Quizzes:** If a student misses a quiz due to an **urgent, documented reason** (illness with doctor’s note, etc.), a make-up quiz may be given at the discretion of the instructor. Otherwise, the weight of the missed quiz will be transferred to the final exam.

**Assignments:** The lowest assignment grade will be dropped when calculating the average of your assignments. This allows a student to miss any one assignment for any reason, including illness, without penalty.

**Late Policy:** Assignments that are late will be given a 25% penalty if the solutions have not yet been posted to the course website. Once the solutions have been posted, late assignments will not be accepted.

**Collaboration Policy:** Student are encouraged to collaborate (work together) on assignments. However, you must be prepared to answer similar questions on your own for the quizzes, so it is vital that you yourself understand all of the assigned questions and work that you turn in.

## 6. Grading System

### Standard Grading System (GPA)

Percentage	Grade	Description	Grade Point Equivalency
90-100	A+		9
85-89	A		8
80-84	A-		7
77-79	B+		6
73-76	B		5
70-72	B-		4
65-69	C+		3
60-64	C		2
50-59	D	Minimum level of achievement for which credit is granted; a course with a "D" grade cannot be used as a prerequisite.	1
0-49	F	Minimum level has not been achieved.	0

### Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy E-1.5 at [camosun.ca](http://camosun.ca) for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete:</i> A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.
IP	<i>In progress:</i> A temporary grade assigned for courses that, due to design may require a further enrollment in the same course. No more than two IP grades will be assigned for the same course. (For these courses a final grade will be assigned to either the 3 <sup>rd</sup> course attempt or at the point of course completion.)
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.

## 7. Recommended Materials or Services to Assist Students to Succeed Throughout the Course

### LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College calendar, at Student Services or the College web site at [camosun.ca](http://camosun.ca).

### STUDENT CONDUCT POLICY

There is a Student Conduct Policy **which includes plagiarism**. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, at Student Services and on the College web site in the Policy Section.

**Math Room:** Technologies Centre (TEC) 142 (phone: 370-4492): This drop-in centre is freely available for your use to work on math homework and to seek help from the tutor on staff (see hours posted on door).
