2. Intended Learning Outcomes

(No changes are to be made to this section, unless the Approved Course Description has been forwarded through EDCO for approval.)

When reading literature, the student will be encouraged to make connections and evaluate works that clearly represent an overview of the topic under discussion. Works normally represent a variety of genres such as short stories, poetry, drama and the novel. In cases where the topic focuses on one genre, works represent varied aspects of that genre and/or illustrate the development of a particular author or literary movement(s). Upon completion of this course the student will be able to:

1. Analyze literature or other media such as film for elements such as theme, structure and rhetorical devices according to established critical criteria.
2. Evaluate works for component elements that clearly represent a literary movement, author, medium or style.

When discussing literature, the student will be encouraged to develop their own interpretations of the works using a variety of critical methods and resources. Upon completion of this course the student will be able to:

1. Identify the socio-historical context of the works and relate the works to others as part of a literary continuum.
2. Identify and account for recurring themes in the spectrum of works evaluated in the course.
3. Compare and contrast the stylistic elements of various works by one or more authors within the context of the topic discussed.
4. Where applicable, evaluate the importance of literary theory in both the creation and interpretation of texts.

When writing about literature, the student will be expected to demonstrate their understanding of the above issues and to explain, support and illustrate their

interpretations of literature in essays and a final exam. Upon completion of this course the student will be able to:

1. Support their work with relevant textual evidence.
2. Document sources using current MLA conventions.
