5. Basis of Student Assessment (Weighting)

This the first part of a Basic Conversational French course.

Students will be evaluated on the basis of their oral participation to class and lab (20%), their weekly assignments (15% + 5% for one oral assignment), and periodic tests (60%).

Students will write chapter tests on all lessons of : Heilenman & Kaplan 's Voilà up to and including chap. 10.

Prior to tests, students are required to complete the workbook : Voilà, Cahier d' activités, after reading the grammatical explanations given in the textbook, at the pace of one chapter per week.

To complete the Lab work, students will be required to participate in formally organized activities (2hrs a week) in Y 209. The French monitor responsible of the lab time will help students to work methodically and guide them through the weekly requirements. It is essential that the students have their chapter exercises completed before attending the Friday class.

Because of the progressive and cumulative nature of the course, late assignments will not be accepted and because of the oral component of the tests, there is no late writing. Written assignments will be explained in class.
