---	--

COURSE OUTLINE

The Approved Course Description is available on the web @ camosun.bc.ca

Ω Please note: this outline will be electronically stored for five (5) years only.
It is strongly recommended students keep this outline for your records.

1. Instructor Information

(a)	Instructor:	Blair Surridge	
(b)	Office Hours:	MThF: 2:30 – 3:20 Th: 10:30--12:20	
(c)	Location:	F350A	
(d)	Phone:	370-3438	Alternative Phone:
(e)	Email:	SurridgeB@camosun.bc.ca bsurridge@shaw.ca (home)	

2. Intended Learning Outcomes

(No changes are to be made to this section, unless the Approved Course Description has been forwarded through EDCO for approval.)

Upon completion of this course the student will be able to:

1. Identify, describe and account for the general characteristics of gases, liquids and solids - interionic and intermolecular forces; vaporization and condensation; melting and freezing; specific characteristics of water.
2. Utilize solution terminology, account for and compare the solubilities of ionic and molecular compounds, and describe the impact of temperature and pressure on solubility.
3. Describe the characteristics of solubility equilibria and use mathematical techniques employed in dealing with this phenomenon.
4. Describe and account for the colligative and osmotic properties of aqueous solutions.
5. Account for differences in the rates of chemical reactions, apply Le Chatelier's Principle to equilibrium processes, and explain how catalysts influence reaction rates.
6. Apply mathematics and equilibrium constant expressions to descriptions of reversible reactions and chemical equilibria.
7. Identify Arrhenius, Bronsted and Lewis acids and bases, and describe the chemical properties of each type of substance.
8. Describe the ionization of water, the pH scale, weak and strong acids and bases, neutralization and the actions of buffer solutions.
9. Perform mathematical calculations involving pH, hydronium ion concentrations and acid-base titrations.

10. Define oxidation and reduction and assign oxidation numbers to the elements of substances involved in oxidation-reduction reactions. Demonstrate the ability to use oxidation numbers in balancing redox reactions.
11. Demonstrate an understanding of electrochemistry and account for the characteristics and uses of the standard hydrogen electrode, standard reduction potentials, electrolytic and voltaic cells.
12. Describe the characteristics of the major types of organic compounds – alkanes, alkenes, alkynes, aromatic hydrocarbons, alcohols, ethers, aldehydes and ketones, carboxylic acids and esters, amines and amides.

3. Required Materials

(a)	Text	"Chemistry, The Central Science: a broad perspective" by Brown et. al., 2010—a.k.a. B-L-B Australian version 2 nd Edition
(b)	Safety Glasses	Book store has "Uvex" safety eyewear – please check if using others
(c)	Lab coat	Bookstore has cloth coats available – please check if using another type
(d)	Lab Manual	Chem 110 laboratory manual

4. Course Content and Schedule

Lectures:

Monday	1:30 to 2:20 pm in F216
Thursday	1:30 to 2:20 pm in F202
Friday	1:30 to 2:20 pm in F202

Unit	Topic	Reference
1	Chemical Matter, Molecules and Ions, Stoichiometry, Atomic and Electronic Structure	Ch. 1, 2, 5, and 6 (note: not all sections in text will be covered)
2	Thermochemistry	Ch. 4
3	Chemical Kinetics	Ch. 12 Omit sections 12.5 and 12.7
4	Chemical Equilibrium	Ch. 13
5	Solution and Solubility	Ch. 11 and 3.2 (precipitation)
6	Acids and Bases	Ch. 14 Omit sections 14.8, 14.9, & 14.11
7(Part 1)	Oxidation/Reduction	Ch. 3 (section 3.4)
7(Part 2)	Electrochemistry	Ch. 16 Omit section 16.4 and 16.5

Chem. 110 Lab Schedule, Wed 11:30-2:20 in F354 (Subject to Change)

Week	Lab Date	Experiment
I	Jan 12 th	Review (see Unit 1 above)
II	Jan 19 th	Review (see Unit 1 above)
III	Jan 26 th	Review Test/ Lab Orientation (Mandatory)
IV	Feb 2 nd	Exp # 1, Energy Changes
V	Feb 9 th	Exp # 2, Reaction rates
VI	Feb 16 th	Exp # 3, Shifting Equilibria
VII	Feb 23 rd	Tutorial and review

VIII	Mar 2 nd	Midterm (2.5hrs)
IX	Mar 9 th	Exp # 4, Precipitation reactions
X	Mar 16 th	Exp # 6, Analysis of Vinegar
XI	Mar 23 st	Exp # 7 Vitamins Analysis
XII	Mar 30 th	Exp # 11 Oxidation of Iron
XIII	Apr 6 th	Exp# 12 Electrochemistry
XIV	Apr 13 th	Review for Final Exam

5. Basis of Student Assessment (Weighting)

Labs	20%
Quizzes	15% (In class)**
Review Test (Unit 1)	10% (~Week III In lab, 50min)*
Midterm Test (Units 2, 3, & 4)	20% (Week VIII Lab Period, 2.5 hours)*
Final Exam (comprehensive)	35% (TBA ~Week XV, 3 hours in December)

* To be confirmed during the first week of classes in January.

**Tentatively seven quizzes scheduled. You will receive at least 3 days of notice before a quiz and details will be posted on D2L!!

Important Notes:

- (1) Students must pass the lab portion and the lecture portion (combined mark from the remaining components) of the course to obtain credit for Chem 110. All labs are to be attended and individual lab reports completed.
- (2) At the discretion of the instructor, a student who is repeating this chemistry course may apply for lab exemption.
- (3) Immediate contact must be made with instructor for missed labs due to illness or family emergencies for arrangements to be made.
- (4) A test score that is not as high as that of the April final exam will be dropped automatically and its weight redistributed to the final exam. For example, if the review test is missed your final exam will then be 45% of the course grade!
- (5) No one is allowed to write late and there will be no exceptions. Early exam is a privilege and not a right; thus, at full discretion of the instructor.

6. Grading System

(No changes are to be made to this section, unless the Approved Course Description has been forwarded through EDCO for approval.)

Standard Grading System (GPA)

Percentage	Grade	Description	Grade Point Equivalency
90-100	A+		9
85-89	A		8
80-84	A-		7
77-79	B+		6
73-76	B		5
70-72	B-		4
65-69	C+		3
60-64	C		2
50-59	D	Minimum level of achievement for which credit is granted; a course with a "D" grade cannot be used as a prerequisite.	1
0-49	F	Minimum level has not been achieved.	0

Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy E-1.5 at camosun.ca for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete:</i> A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.
IP	<i>In progress:</i> A temporary grade assigned for courses that, due to design may require a further enrollment in the same course. No more than two IP grades will be assigned for the same course. <i>(For these courses a final grade will be assigned to either the 3rd course attempt or at the point of course completion.)</i>
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.

7. Important Dates

Week

III Jan 24: Fee deadline

VII Feb 24-25 Reading Days

X Mar 14 Last Day to Withdraw or Change to Audit...

XV Apr 18-21 & 26-29: Exam Period for winter 2011

8. Recommended Materials or Services to Assist Students to Succeed Throughout the Course

LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College calendar, at Student Services or the College web site at camosun.ca.

STUDENT CONDUCT POLICY

There is a Student Conduct Policy **which includes plagiarism**. It is the student's responsibility to become familiar with the content of this policy. The policy is available in each School Administration Office, at Student Services and on the College web site in the Policy Section.

Prerequisite: Chem 11 (C grade minimum)
