

COURSE OUTLINE

The course description is online @ <http://camosun.ca/learn/calendar/current/web/math.html>

Ω Please note: the College electronically stores this outline for five (5) years only.
 It is **strongly recommended** you keep a copy of this outline with your academic records.
 You will need this outline for any future application/s for transfer credit/s to other colleges/universities.

1. Instructor Information

(a)	Instructor:	
(b)	Office Hours:	
(c)	Location:	
(d)	Phone:	Alternative Phone:
(e)	Email:	
(f)	Website:	

SEE BELOW

2. Intended Learning Outcomes

(No changes are to be made to these Intended Learning Outcomes as approved by the Education Council of Camosun College.)

Upon completion of this course the student will be able to:

1. Find the limit of elementary functions as the independent variable approaches some finite value or approaches infinity.
2. Define continuity.
3. Find the derivative of simple functions using the definition.
4. Find the derivative of functions (polynomial, trigonometric, logarithmic and exponential functions) using the product, quotient and chain rule.
5. Find the derivative using implicit differentiation.
6. Solve problems involving rates of change.
7. Find relative and absolute extrema of functions.
8. Sketch graphs of functions identifying such features as relative extrema, intervals where the function is increasing and decreasing, points of inflection, intervals where the function is concave up and concave down, and asymptotes.
9. Solve problems that involve maximizing or minimizing some variable associated with the problem.
10. Solve equations using Newton's method.
11. Find the area under a curve using the limit of the area of a set of approximating rectangles.
12. Evaluate a definite and an indefinite integral of polynomial, trigonometric, logarithmic and exponential functions using the Fundamental theorem of Calculus.
13. Use the Mean Value Theorem of integrals to find the mean value of a continuous function.
14. Evaluate integrals using the method of substitution.
15. Evaluate definite integrals using the trapezoidal rule and Simpson's rule.
16. Solve elementary differential equations using the method of separation of variables.

3. Required Materials

- (a) Texts
- (b) Other

4. Course Content and Schedule

(This section can include class hours, lab hours, out of class requirements and/or dates for quizzes, exams, labs, seminars, etc.)

SEE BELOW

5. Basis of Student Assessment (Weighting)

(This section should be directly linked to the Intended Learning Outcomes.)

- (a) Assignments
- (b) Quizzes
- (c) Exams
- (d) Other (e.g., Attendance, Case Projects, Group Work)

SEE BELOW

6. Grading System

(No changes are to be made to this section unless the Approved Course Description has been forwarded through the Education Council of Camosun College for approval.)

Standard Grading System (GPA)

Percentage	Grade	Description	Grade Point Equivalency
90-100	A+		9
85-89	A		8
80-84	A-		7
77-79	B+		6
73-76	B		5
70-72	B-		4
65-69	C+		3
60-64	C		2
50-59	D	Minimum level of achievement for which credit is granted; a course with a "D" grade cannot be used as a prerequisite.	1
0-49	F	Minimum level has not been achieved.	0

Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy E-1.5 at camosun.ca for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete:</i> A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.
IP	<i>In progress:</i> A temporary grade assigned for courses that, due to design may require a further enrollment in the same course. No more than two IP grades will be assigned for the same course. (For these courses a final grade will be assigned to either the 3 rd course attempt or at the point of course completion.)
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.

7. Recommended Materials or Services to Assist Students to Succeed Throughout the Course

LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College calendar, at Student Services, or the College web site at camosun.ca.

STUDENT CONDUCT POLICY

There is a Student Conduct Policy **which includes plagiarism**. It is the student's responsibility to become familiar with the content of this policy.

ADDITIONAL COMMENTS AS APPROPRIATE OR AS REQUIRED

**Mathematics 100
Calculus 1
Fall, 2011**

Instructor: George Ballinger
Office: Ewing 256
E-mail: ballinger@camosun.bc.ca
Website: ballinger.disted.camosun.bc.ca (click the [MATH 100](#) link for course information)
Telephone: (250) 370-3116
Timetable:

Time	Monday	Tuesday	Wednesday	Thursday	Friday
8:30 am – 9:20 am	MATH 100-001 Room Y217	MATH 100-001 Room Y217	MATH 100-001 Room Y217	MATH 100-001 Room Y217	MATH 100-001 Room Y217
9:30 am – 10:20 am

11:30 am – 12:20 pm	MATH 108-002 Room Y217	MATH 108-002 Room Y217	MATH 108-002 Room Y217	MATH 108-002 Room Y217	MATH 108-002 Room Y217
12:30 pm – 1:20 pm					
1:30 pm – 2:20 pm	MATH 100-003 Room Y217	MATH 100-003 Room Y217	MATH 100-003 Room Y217	MATH 100-003 Room Y217	MATH 100-003 Room Y217

Important Dates:

September 6	First day of class
September 20	Tuition fees due date
October 10	Thanksgiving Day (no class)
November 8	Withdrawal date deadline
November 11	Remembrance Day (no class)
December 9	Last day of class
December 12-17, 19-20	Final exam period

Calendar Description: For mathematics and science students. Topics include limits, derivatives of algebraic, trigonometric, logarithmic and exponential functions, applications of differentiation and the Fundamental Theorem of Calculus. Students will complete some assignments using Maple. [4 Credits]

(Source: Camosun College 2011-2012 Calendar
www.camosun.bc.ca/learn/calendar/current/web/math.html)

Prerequisites: B in Principles of Math 12, Pre-calculus 12, MATH 093, MATH 105 or MATH 115; or assessment.

Note about Credit: Only one of MATH 100 or MATH 108 may be used toward a Camosun College credential.

Exit Grade: A grade of at least C is required when this course is used as a prerequisite for entry into MATH 101 or any other Camosun course.

Required Textbooks: Ron Larson and Bruce H. Edwards, *Calculus of a Single Variable*, 9th Edition, Brooks/Cole, 2010.

Course Content:

Chapters and Sections

- P. Preparation for Calculus
 - P.1 Graphs and Models
 - P.2 Linear Models and Rates of Change
 - P.3 Functions and Their Graphs
- 1. Limits and Their Properties
 - 1.1 A Preview of Calculus
 - 1.2 Finding Limits Graphically and Numerically
 - 1.3 Evaluating Limits Analytically
 - 1.4 Continuity and One-Sided Limits
 - 1.5 Infinite Limits
- 2. Differentiation
 - 2.1 The Derivative and the Tangent Line Problem
 - 2.2 Basic Differentiation Rules and Rates of Change
 - 2.3 Product and Quotient Rules and Higher-Order Derivatives
 - 2.4 The Chain Rule
 - 2.5 Implicit Differentiation
 - 2.6 Related Rates
- 3. Applications of Differentiation
 - 3.1 Extrema on an Interval
 - 3.2 Rolle's Theorem and the Mean Value Theorem
 - 3.3 Increasing and Decreasing Functions and the First Derivative Test
 - 3.4 Concavity and the Second Derivative Test
 - 3.5 Limits at Infinity
 - 3.6 A Summary of Curve Sketching
 - 3.7 Optimization Problems
 - 3.8 Newton's Method
 - 3.9 Differentials
- 4. Integration
 - 4.1 Antiderivatives and Indefinite Integration
 - 4.2 Area
 - 4.3 Riemann Sums and Definite Integrals
 - 4.4 The Fundamental Theorem of Calculus
 - 4.5 Integration by Substitution
 - 4.6 Numerical Integration
- 5. Logarithmic, Exponential, and Other Transcendental Functions
 - 5.1 The Natural Logarithmic Function: Differentiation
 - 5.2 The Natural Logarithmic Function: Integration
 - 5.3 Inverse Functions
 - 5.4 Exponential Functions: Differentiation and Integration
 - 5.5 Bases Other Than e and Applications
- 6. Differential Equations
 - 6.2 Differential Equations: Growth and Decay
 - 6.3 Separation of Variables and the Logistic Equation

Learning Outcomes:	<p>The Intended Learning Outcomes for this course, as approved by the Education Council, are as follows. Upon completion of this course the student will be able to:</p> <ol style="list-style-type: none"> 1. Find the limit of elementary functions as the independent variable approaches some finite value or approaches infinity. 2. Define continuity. 3. Find the derivative of simple functions using the definition. 4. Find the derivative of functions (polynomial, trigonometric, logarithmic and exponential functions) using the product, quotient and chain rule. 5. Find the derivative using implicit differentiation. 6. Solve problems involving rates of change. 7. Find relative and absolute extrema of functions. 8. Sketch graphs of functions identifying such features as relative extrema, intervals where the function is increasing and decreasing, points of inflection, intervals where the function is concave up and concave down, and asymptotes. 9. Solve problems that involve maximizing or minimizing some variable associated with the problem. 10. Solve equations using Newton's method. 11. Find the area under a curve using the limit of the area of a set of approximating rectangles. 12. Evaluate a definite and an indefinite integral of polynomial, trigonometric, logarithmic and exponential functions using the Fundamental theorem of Calculus. 13. Use the Mean Value Theorem of integrals to find the mean value of a continuous function. 14. Evaluate integrals using the method of substitution. 15. Evaluate definite integrals using the trapezoidal rule and Simpson's rule. 16. Solve elementary differential equations using the method of separation of variables.
A&S Math Lab:	Ewing 224: This drop-in centre is freely available for your use to work on math homework and to seek help from the tutor on staff (see hours posted on door).
Study Time:	It is recommended that approximately 8-10 hours per week be spent studying for this course outside of class time.
Calculator Policy:	As per Math Department policy, the only calculator permitted for use on tests and the final exam is the Sharp EL-531X (or the discontinued EL-531W) scientific calculator. No other make/model of calculator is permitted, nor are other electronic devices such as cell phones, iPods, electronic translators, etc.
Homework:	There will be periodic assignments to be handed in for marking, details for which will be posted on the course website. LATE ASSIGNMENTS WILL NOT BE ACCEPTED.
Maple Labs:	Maple labs will take place in the computer lab Ewing 115 on the following Fridays: Sep 16, Sep 30, Oct 14, Oct 28, Nov 18 and Nov 25.
Final Exam:	A comprehensive final exam will take place during the final exam period of December 12-17, 19-20. The specific date, time, and location will be announced sometime in October. You must write the final exam at this time as per Camosun College's policy on final examinations. See camosun.ca/learn/calendar/current/pdf/academic-policies.pdf .

Grade Calculation:

The final grade will be calculated according to the following breakdown:

Assignments:	15%*
Maple Labs:	5%
Term Tests:	30%
Comprehensive 3-hour Final Exam:	50% (or 100%)**

* *Note:* The lowest assignment mark will be dropped when calculating the assignment average. This allows you to miss one assignment without penalty.

** *Note:* If your term work is COMPLETE and SATISFACTORY and your mark on the final exam is higher than your term work, then your final exam mark will count for 100% of your grade.

Grade Scale:

Final letter grades are assigned as follow:

0-49	50-59	60-64	65-69	70-72	73-76	77-79	80-84	85-89	90-100
F	D	C	C+	B-	B	B+	A-	A	A+

For information on Camosun College's grading policy, see Sec E-1.5 on the policy webpage camosun.ca/about/policies/policies.html.
