Aside from doing regular on-air shifts on Village 900, you will use the production facilities to complete several projects. More advanced technical skills such as digital audio production will be stressed, along with on air presentation skills. You will acquire research and interviewing experience.

## 5. Basis of Student Assessment (Weighting)

Projects are due by deadlines stated on assignment sheets. Assignments **must** be turned in on the due date at the beginning of class. Late assignments will **not** be accepted!

- Please inform me of any expected absences prior to class. In the case of illness or emergency, you should leave a message for me at 370-3395 or by email as soon as possible. You are responsible for all worked missed due to absence.
- If you must miss an **air shift** due to illness you need to inform Brad 370-3658 as soon as possible. Calling in sick an hour or two before a scheduled shift is not acceptable. After hours you must let leave a voice mail for Brad and let the person in the control room know: 370-3450.
- You must show up on time and prepared for on-air shifts, failure to do so will result in harsh penalties in terms of grades. Unlike missing a class, missing a scheduled on-air shift has serious repercussions and often affects other individuals. We do not take missed shifts lightly.

## 6. Grading System

Your evaluation resulting from the above evaluation scheme will be converted to letter grades based on the following table, which is the standard Camosun scheme.
