5. Basis of Student Assessment (Weighting)

(This section should be directly linked to the Intended Learning Outcomes.)

Important Note: Students are expected to complete their own labs, projects and other assignments. In small group projects or labs, all students are expected to participate and contribute to their completion. Copying answers or using works from others are not permitted. See note on plagiarism. Students found violating the Student Conduct Policy will be assigned an F for the assignment or the course.

Labs (30%): a total of 5 labs will be assigned during the semester and the best 4 labs will be counted. Each lab will carry equal marks. All labs are to be submitted as scheduled (see schedule of activities). Students can work individually or in small group of 2-3 but must form a new group each time. **Late labs are not accepted.**

Project (20%): The theme of this year focuses on achieving the Millennium Development Goals in Sub-Saharan Africa. Students are encouraged to form a small group of 2-3 or individually to develop either a research project or a service learning activity. All research projects or service learning activities have to be **presented and submitted in the form of posters, power-point, or other audio-visual format.** The audio-visual materials will be evaluated by its content, organization of materials, appropriate use of photos, graphs, maps, etc, and proper citation of sources and consistent design. *Students conducting an extensive service learning project may be allowed to shift a maximum of 10% from another assignment. The request must be made in writing as part of the project's proposal. Consult the instructor for details*

Presentation (10%): Each individual or group is required to present a 10-15 minute oral summary of their project as scheduled. The order of presentation will be assigned by the instructor according to the topics. No rescheduling of presentations will be permitted. The evaluation of the presentation is based on speaking style, content, organization and time management.

Tests

Test 1 (20%): The first test will be based on the reading, lecture and lab materials covered in the first half of the course. See schedule of activities for the test date.

Test 2 (20%): The second test will be based on the reading, lecture, and lab materials covered after the first test. See schedule of activities for the test date.

Important Note: A doctor's certificate or equivalent is required to take a supplementary examination. Other supplementary examinations approved by the instructor may be subjected to a penalty of 5% per day.
