5. Basis of Student Assessment (Weighting)

Each student will be expected to complete assignments on time, and are expected to attend each class and contribute at group analysis of completed works.

There are three components considered for the final grade:

- 70% - an understanding of the issues and concerns of contemporary art as demonstrated by completed projects
- 20% - written assignments and journals
- 10% - attendance, participation in group critiques

Marks will be deducted for late projects and assignments and absence during critiques and discussions!

There will be mid-semester interviews with students. This will provide the student with an indication of their achievement during the first half of the course. A student who attends the course **on a regular basis** will be given a clear indication of a possible “F” or “P” grade anticipated by the instructor from the mid-semester onwards.

** Attendance is one of the main criteria of the involvement and participation category. It is mandatory because class discussion cannot be recreated and therefore not made up if missed. Missing a class without a valid reason will result in a deduction of 5% from your final grade for each class missed.*

Missing more than two classes will seriously jeopardize your successful completion of the course. Tardiness will also have the same effect. Involvement and participation will also be evaluated on the level of care and on the quality of your engagement with your work.

There is also a final interview for Visual Arts program students during examination week*, and final grades will be posted at a later date. The criteria will be as stated in the student handbook. A grade of “C” or higher is required in order to continue in the Visual Arts program, or to attain the prerequisite for Art 142 onwards.

** do not book your Christmas flights for this week*

6. Grading System

The following percentage conversion to letter grade will be used:

A+ = 90 - 100%	B = 73 - 76%	D = 50 - 59%
A = 85 - 89%	B- = 70 - 72%	F = 0.0 - 49%
A- = 80 - 84%	C+ = 65 - 69%	
B+ = 77 - 79%	C = 60 - 64%
