

COURSE OUTLINE

The course description is online @ <http://camosun.ca/learn/calendar/current/web/math.html>

Ω Please note: the College electronically stores this outline for five (5) years only.
It is **strongly recommended** you keep a copy of this outline with your academic records.
You will need this outline for any future application/s for transfer credit/s to other colleges/universities.

1. Instructor Information

(a)	Instructor:	Chedo Barone		
(b)	Office Hours:	Mon, Tues, Wed, Thur: 11:30 – 12:20, or by appointment		
(c)	Location:	E254		
(d)	Phone:	370-3493	Alternative Phone:	
(e)	Email:	baronec@camosun.bc.ca		
(f)	Website:	http://sites.google.com/site/chedobarone		

2. Intended Learning Outcomes

(No changes are to be made to these Intended Learning Outcomes as approved by the Education Council of Camosun College.)

Upon completion of this course the student will be able to:

1. Find the limit of elementary functions as the independent variable approaches some finite value or approaches infinity.
2. Find the derivative of simple functions using the definition of the derivative.
3. Find the derivative of functions (polynomial, trigonometric, logarithmic and exponential functions) using the product, quotient and chain rule.
4. Find the derivative using implicit differentiation.
5. Solve problems involving rates of change.
6. Find relative and absolute extrema of functions.
7. Sketch graphs of functions identifying such features as relative extrema, intervals where the function is increasing and decreasing, points of inflection, intervals where the function is concave up and concave down, and asymptotes.
8. Solve problems that involve maximizing or minimizing some variable associated with the problem.
9. Find the approximate area under a curve using the area of a set of approximating rectangles.
10. Evaluate a definite and an indefinite integral of polynomial, trigonometric, logarithmic and exponential functions using the Fundamental theorem of Calculus.
11. Evaluate integrals using the method of substitution.
12. Use integration to find the area between two curves.
13. Evaluate a definite and indefinite integral by the method of integration by parts.
14. Solve elementary differential equations using the method of separation of variables.
15. Solve problems using differential and integral calculus that involve applications from business and/or biological sciences.

3. Required Materials

- (a) Texts

RN Greenwell, NP Ritchey and ML Lial, *Calculus with Applications for the Life Sciences*, Custom Edition for Camosun College, Pearson, 2003.

Note: The custom edition of the textbook is a less expensive, paperback version of the regular 1st edition of the textbook with chapters 9, 10, 12 and 13 omitted as they are unneeded.

4. Course Content and Schedule

Course Content: Chapter and Sections

R. Algebra Reference

R.1 Polynomials

R.2 Factoring

R.3 Rational Expressions

R.4 Equations

R.5 Inequalities

R.6 Exponents

R.7 Radicals

1. Functions

1.1 Lines and Linear Functions

1.3 Properties of Functions

1.4 Quadratic Functions; Translation and Reflection

1.5 Polynomial and Rational Functions

2. Exponential, Logarithmic, and Trigonometric Functions

2.1 Exponential Functions

2.2 Logarithmic Functions

2.3 Applications: Growth and Decay

2.4 Trigonometric Functions

3. The Derivative

3.1 Limits

3.2 Continuity

3.3 Rates of Change

3.4 Definition of the Derivative

3.5 Graphical Differentiation

4. Calculating the Derivative

4.1 Techniques for Finding Derivatives

4.2 Derivatives of Products and Quotients

4.3 The Chain Rule

4.4 Derivatives of Exponential Functions

4.5 Derivatives of Logarithmic Functions

4.6 Derivatives of Trigonometric Functions

5. Graphs and the Derivative

5.1 Increasing and Decreasing Functions

5.2 Relative Extrema

- 5.3 Higher Derivatives, Concavity, and the Second Derivative Test
 - 5.4 Curve Sketching
 - 6. Applications of the Derivative
 - 6.1 Absolute Extrema
 - 6.2 Applications of Extrema
 - 6.3 Implicit Differentiation
 - 6.4 Related Rates
 - 6.5 Differentials: Linear Approximation
 - 7. Integration
 - 7.1 Antiderivatives
 - 7.2 Substitution
 - 7.3 Area and the Definite Integral
 - 7.4 The Fundamental Theorem of Calculus
 - 7.5 Integrals of Trigonometric Functions
 - 7.6 The Area Between Two Curves
 - 8. Further Techniques and Applications of Integration
 - 8.2 Integration by Parts
 - 11. Differential Equations
 - 11.1 Solutions of Elementary and Separable Differential Equations
- EXTRA: Newton's Method (class notes)

Schedule: A tentative pacing schedule, with a list of quiz and midterm dates, is available on the course webpage, or at the following link:

https://dl.dropboxusercontent.com/u/7027701/math108/M108_Spring2013_Schedule.pdf

5. Basis of Student Assessment (Weighting)

(This section should be directly linked to the Intended Learning Outcomes.)

Quizzes and Midterms: The quizzes will be short (approx. 20 minutes), and the questions will largely be drawn from the list of suggested practice problems (see the course webpage). For the quizzes, you will be allowed the use of your notes and text.

The midterms will each be approximately 50 minutes in duration. You will **not** be allowed the use of your notes or text for the midterms.

Final Exam: A comprehensive final exam will take place during the final exam period of June 24 - 26. The specific date, time, and location will be announced sometime in early June. You must write the final exam at this time as per Camosun College's policy on final examinations. See camosun.ca/learn/calendar/current/pdf/academic-policies.pdf.

Grade Calculation:

The final grade will be calculated according to the following breakdown:

Quizzes: 12%*

Midterms: 38%

Comprehensive 3-hour Final Exam: 50% (or 100%)**

* *Note:* The two lowest quiz marks will be dropped when calculating the quiz average. This allows you to miss two quizzes without penalty.

** *Note:* If your term work is COMPLETE and SATISFACTORY and your mark on the final exam is higher than your term work, then your final exam mark will count for 100% of your grade.

Make-up Midterms: If you have missed a midterm, or wish to rewrite a midterm, you will have the opportunity to do so on the last day of class (June 20, 2013). You will be allowed to rewrite **up to two** of the three midterms. You must confirm with me in writing (by email) which midterms you will attempt, by Monday June 17, 2013.

6. Grading System

(No changes are to be made to this section unless the Approved Course Description has been forwarded through the Education Council of Camosun College for approval.)

Standard Grading System (GPA)

Percentage	Grade	Description	Grade Point Equivalency
90-100	A+		9
85-89	A		8
80-84	A-		7
77-79	B+		6
73-76	B		5
70-72	B-		4
65-69	C+		3
60-64	C		2
50-59	D	Minimum level of achievement for which credit is granted; a course with a "D" grade cannot be used as a prerequisite.	1
0-49	F	Minimum level has not been achieved.	0

Temporary Grades

Temporary grades are assigned for specific circumstances and will convert to a final grade according to the grading scheme being used in the course. See Grading Policy E-1.5 at camosun.ca for information on conversion to final grades, and for additional information on student record and transcript notations.

Temporary Grade	Description
I	<i>Incomplete:</i> A temporary grade assigned when the requirements of a course have not yet been completed due to hardship or extenuating circumstances, such as illness or death in the family.
IP	<i>In progress:</i> A temporary grade assigned for courses that, due to design may require a further enrollment in the same course. No more than two IP grades will be assigned for the same course. <i>(For these courses a final grade will be assigned to either the 3rd course attempt or at the point of course completion.)</i>
CW	<i>Compulsory Withdrawal:</i> A temporary grade assigned by a Dean when an instructor, after documenting the prescriptive strategies applied and consulting with peers, deems that a student is unsafe to self or others and must be removed from the lab, practicum, worksite, or field placement.

7. Recommended Materials or Services to Assist Students to Succeed Throughout the Course

LEARNING SUPPORT AND SERVICES FOR STUDENTS

There are a variety of services available for students to assist them throughout their learning. This information is available in the College calendar, at Student Services, or the College web site at camosun.ca.

STUDENT CONDUCT POLICY

There is a Student Conduct Policy **which includes plagiarism**.
It is the student's responsibility to become familiar with the content of this policy.
The policy is available in each School Administration Office, at Student Services,
and the College web site in the Policy Section.

ADDITIONAL COMMENTS AS APPROPRIATE OR AS REQUIRED

Calendar Description: For students in biology, business, economics, or the social sciences who require only one semester of calculus. Topics include limits, derivatives of algebraic, logarithmic, exponential and trigonometric functions, the definite and indefinite integral and integration by parts. [4 Credits]

*(Source: Camosun College 2012-2013 Calendar
www.camosun.bc.ca/learn/calendar/current/web/math.html)*

Prerequisites: **C+** in Principles of Math 12, Pre-calculus 12 or MATH 093; or **C** in MATH 105, MATH 107 or MATH 115; or assessment. (Refer to the calendar for alternate prerequisites.)

Note about Credit: Only one of MATH 100 or MATH 108 may be used toward a Camosun College credential.

Exit Grade: A grade of at least **C** is required when this course is used as a prerequisite for entry into another Camosun course such as MATH 218.

A&S Math Lab: Ewing 224: This drop-in centre is freely available for your use to work on math homework and to seek help from the tutor on staff (see hours posted on door).

Study Time: It is recommended that approximately 12 hours per week be spent studying for this course outside of class time.

Calculator Policy: As per Math Department policy, the only calculator permitted for use on tests and the final exam is the Sharp EL-531X (or the discontinued EL-531W) scientific calculator. No other make/model of calculator is permitted, nor are other electronic devices such as cell phones, iPods, electronic translators, etc.
